EXECUTIVE SUMMARY

By 2025, India would rise from the 12th to the 5th largest position in the consumer durables market in the world; the market is estimated to reach USD12.5 billion in 2016.

India is set to become the 5th largest consumer durables market in the world.

By 2020, the electronics market in India is expected to increase to USD28 billion from USD100 billion in FY17. The production is expected to reach to USD104 billion by 2020.

India is one of the largest growing electronics market in the world.

By 2018, the television industry in India is expected to grow to USD14.7 billion from USD8.9 billion in 2015.

India has the world’s 3rd largest television industry.

CONSUMER DURABLES

ADVANTAGE INDIA
CONSUMER DURABLES

Growing demand

- Demand growth is likely to accelerate with rising disposable incomes & easy access to credit
- Increasing electrification of rural areas & wide usability of online sales would also aid growth in demand
- Rise in working age population also to stimulate demand

Opportunities

- Rural markets currently contribute 33 per cent to total sales; their combined size is set to post a CAGR of 25 per cent over 2010-15
- Huge untapped rural market; currently there is only 2 per cent penetration for refrigerators & 0.5 per cent for washing machines

Increasing investments

- Sector has attracted significant investments over the years (even during the global downturn of 2009-10)
- USD1 billion worth investments in production, distribution & R&D in the next few years
- In November 2016, Britannia Industries, one of the India’s biggest brands of the country, opened an R&D centre & a manufacturing unit in Bidadi, near Bengaluru entailing an investment of USD2.98 billion.

Policy support

- 100 per cent FDI allowed in the electronics hardware-manufacturing sector under the automatic route; Approval of 51 per cent in multi-brand would further fuel the growth in this sector
- National Electronic Policy (2012) to boost investment in the sector
- Modified special incentive package scheme (M-SIPS) has been introduced for growth of consumer durable industry.

FY16E

Market size: USD12.5 billion

FY20E

Market size: USD20.6 billion

Notes: FDI - Foreign Direct Investment, FY - Indian Financial Year (April - May), CAGR - Compound Annual Growth Rate, EPCG - Export Promotion Capital Goods Scheme, EHTP - Electronic Hardware Technology Park

CONSUMER DURABLES

EVOLUTION OF THE INDIAN CONSUMER DURABLES SECTOR

1980s and early 1990s
- Closed market
- Increased product availability, increased media penetration & advertising

Liberalisation
- Liberalisation of markets
- Influx of global players such as LG & Samsung
- Shift in focus from promotion to product innovation

Early 2000s
- Increasing availability & affordability of consumer finance provides impetus to growth
- Low penetration of high-end products such as air conditioners (<1 per cent)

Mid and late 1990s

Late 2000s
- Companies look to consolidate market share
- Indian companies such as Videocon gaining global identity
- Increasing penetration of high-end products such as air conditioners (>3 per cent)
- Introduction of new aspirational products such as High Definition TVs (HDTVs)
- Companies targeting high growth in rural market, rural India’s FMCG market to go beyond USD100 billion by 2025
- As per Union Budget 2016-17, the reduction in special additional duty, basic customs duty & countervailing duty has been reduced in the range of 4 to 12.5 per cent depending on the product category

2017
- Basic custom duty rate of 10 per cent is applicable on goods such as microwave ovens, air conditioners, televisions, washing machines & refrigerators. They can be now imported as completely built units from SAFTA & ASEAN countries like Japan & Thailand at concessional rates of BCD ranging from 0-6 per cent.

Source: TechSci Research
In 2015, revenue from consumer durables sector in India stood at USD9.7 billion, which further increased to USD12.5 billion in FY16.

Consumer durable market expected to grow at CAGR of 13 per cent from FY05 to FY20.

Around two third of the total revenue is generated from urban population & rest is generated from rural population.

Godrej group, Onida Electronics, Blue Star & Videocon Industries are few of the major domestic players operating in India consumer durable market.

Source: Electronic Industries Association of India,
CAGR – Compound Annual Growth Rate,
Note: (F) Forecast
Urban areas account for about two-thirds of total sales in the sector

- Urban markets accounted for the major share (67 per cent) of total revenues in the consumer durables sector in India in FY15.
- Demand in urban markets is likely to increase for non-essential products such as LED TVs, laptops, split ACs, beauty & wellness products.
- In rural markets, durables like refrigerators as well as consumer electronic goods are likely to witness growing demand in the coming years as the government plans to invest significantly in rural electrification.
- Rural & semi-urban markets are likely to contribute majorly to consumer sales. The rural consumer durables market is growing at a CAGR of 25 per cent.
- India stands at 4th position in the top 10 global smart phones market.
- During festival season, Maharashtra witnessed increase in consumer durables loan at a robust rate of 58.28 per cent, due to more purchases of TVs & washing machines.
- As per the EY report (1) published in March 2017, country’s top 50 biggest cities experienced growth in consumption pattern corresponding to high gross domestic product of the country.

CONSUMER DURABLES

CONSUMER ELECTRONICS – KEY PRODUCTS

Colour TVs (CTVs)
- CTVs are the largest contributors to this segment
- Television category is expected to grow at 20 per cent from 2014 to 2020
- India television industry stood at USD8.28 billion in 2015, exhibiting a y-o-y growth of 14.2 per cent in 2015 over USD7.78 billion in 2014
- Introduction of HDTVs is set to drive demand growth from affluent consumers

Liquid Crystal Displays (LCDs)
- The price decline due to relatively low import duty on LCD panels, higher penetration levels & the introduction of small entry-size models are key growth drivers in the segment
- In 2015, total market for Flat Panel Display TV is expected to reach USD6.40 billion while 14.38 million units are expected to be bought in the same year

Digital Video Discs (DVDs)
- The organised market has a share of 80 per cent in the total market

Direct-To-Home (DTH)
- The Set-Top Box (STB) market is growing rapidly, due to the expansion of DTH & introduction of the Conditional Access System (CAS) in metros
- In 2015, set top box category reached 39.4 million
- DTH subscriber base in India reached 88.40 million in FY16 & is expected to reach 200 million by 2018, thereby making India one of the world’s largest DTH market
- Penetration to increase from 7 per cent currently to 20 per cent by 2020

CONSUMER DURABLES

CONSUMER APPLICATIONS – KEY PRODUCTS

Refrigerators

- This segment makes up 31 per cent of the consumer appliances market
- The production of refrigerators in FY16 stood at 92.03 lakh, and whereas production in FY17 (April – Oct) stood at 61.33 lakh.
- The import and export of refrigerators stood at 382.48 million & 250.22 million. whereas in FY17 (April-Sept), the import stood around US$ 215.08 million and exports were valued at US$ 144.36 million

Air Conditioners (ACs)

- The Indian ACs market size by volume accounted for sales of 10 million units in 2015
- The size of the residential segment of room ACs expanded to USD1.47 billion in 2015
- The production of air conditioners was 27.96 lakh in FY16 and 17.12 lakh in FY17 (April-Oct) in the organized sector
- The segment had a 13.0 per cent share in 2013 in the consumer appliances market
- High income growth & rising demand for split ACs are the key growth drivers

Washing appliances

- Segment size is estimated to be USD727 million in 2015
- Washing machine is expected to exhibit 8-9 per cent year on year growth
- In the organized sector, production of washing appliances was 43.10 lakh in FY16 and 31.09 lakh in FY17 (April-Oct)

Electric fans

- The branded fan market in India is estimated to be USD0.83 billion in 2015
- This is a highly penetrated market
- The Bureau of Energy Efficiency to offer USD64 million to the manufacturers for promoting energy efficient fans

Increasing presence of organised retail

- India holds 5th position in global retail industry.
- In 2016, India retail industry 2016 was valued at USD672 billion & is estimated to reach USD702.02 billion in FY17 & USD1150 billion by 2020. Retail e-commerce sector is expected to reach USD17.5 billion in 2018.
- The penetration of modern retail is 12 per cent in consumer durables segment in 2015.
- The sector is witnessing the emergence of modern durable retail chains & e-retailers like Tata Croma, Reliance Digital, E zone.
- Within the organised retail sector, apparel accounted for the largest segment during FY16, while the unorganised sector made a contribution of 13 per cent to the GDP, in the same year.
- Online retail marketing to grow at a CAGR of 40-45 per cent during 2014-2018.

Indian retail industry (2016)

- Shares in the organised retail sector (2015)

NOTABLE TRENDS IN THE CONSUMER DURABLES SECTOR … (2/2)

Expansion into new segments

- In April 2017, Kodak has started selling HD LED televisions in 400 retail stores. The product is already available on online channels since 2016.
- As of March 2017, Micromax plans to invest USD 89.25 million in the next 3 years for transforming itself into a consumer electronics company.
- In May, 2017, Hindustan Unilever announced the launch of its skincare brand Citra in India. The company is targeting women consumers ageing between 15 and 35 years, in various countries such as Thailand, Indonesia and the Middle East.
- Voltas, a leading India based air conditioner manufacturer, announced plans in May 2017 to establish a joint venture with Turkey based Arduck. The JV, with an equity capital of US$100 million, would mark the entry of Voltas into the country’s consumer durables market.

Increased affordability of products

- Advancement in technology & higher competition are driving price reductions across various consumer durable product segments such as computers, mobile phones, refrigerators & TVs. With the initiative of “Make in India” campaign, many domestic & Chinese manufactures are investing in India to set up their manufacturing plants which would produce more affordable products.
- After implementation of GST, most life saving drugs & consumer goods are likely to be cheaper. Out of the 1211 items, 7 per cent have been exempted from the GST list.

Focus on energy-efficient and environment-friendly products

- India has made it mandatory for manufacturing companies to control emissions from climate-damaging refrigerants.
- In January 2016, LG electronics announced that the company will focus on premium inverter split air-conditioners that are more energy efficient & would discontinue its regular split air-conditioners, which account for almost 80 per cent of the Indian market.
- In February 2017, Panasonic launched Sky Series air conditioners with the radiant technology.

Growing luxury market

- Growing number of HNI’s & women in workforce is boosting demand for luxury products.
- Luxury brands like Porsche, Jimmy Choo are increasing their store presence.
- Luxury brands are launching their own websites to cater to Indian luxury brand market.

PORTERS FIVE FORCES ANALYSIS
PORTER’S FIVE FORCES ANALYSIS

**Competitive Rivalry**
- Continuous innovation leads to intense rivalry
- Homogeneity in product and low switching cost

**Threat of New Entrants**
- Highly capital intensive
- Major players have developed brand equity
- Brand loyalty is moderate

**Substitute Products**
- Technology advancements
- Buyers have huge propensity to substitute

**Bargaining Power of Suppliers**
- Product differentiation is very low
- By changing the input, firms cannot drastically differentiate on price

**Bargaining Power of Customers**
- Use of Internet to get all the information enables customers to be powerful
- Buyer’s switching cost is very less

CONSUMER DURABLES

STRATEGIES ADOPTED
### STRATEGIES ADOPTED

#### Powerful competitive strategy
- To reduce the price of their products, Xiaomi followed a totally different approach. Rather than using traditional advertising it has used inexpensive social media campaigns which helped the company in producing mobile phones at competitive prices in the market.
- Samsung has acquired JBL & Harman Kardon for USD8 billion, other brands to come under Samsung are Mark Levinson, AKG, Lexicon, Infinity & Revel, Bowers & Wilkins & Bang & Olufsen brands.
- As of March 2017, P&G Overseas India is planning to acquire a stake of 3.35 per cent in P&G Hygiene & Healthcare division, from Rosemount LLC, the parent group company. The stake’s value is US$ 113.49 million.

#### Marketing strategies
- The firms are now partnering with e-retailers to promote sales & increase penetration in the Indian market.
- One plus Chinese mobile manufacturing company has tied up with Amazon to sell its mobile phones in India.
- In February 2017, Microsoft Corp announced a strategic partnership with Flipkart, by virtue of which, Flipkart will adopt Microsoft Azure as its exclusive public cloud computing platform & help customers in shopping online.
- Birla Cellulose, a part of Aditya Birla Group’s Grasim Industries, is taking its Liva brand of viscose fabric abroad. The company has already established a Liva Accredited Partners’ Forum (LAPF) in Bangladesh and Indonesia, and is looking up to set up a similar forum in China as well.

#### Occasion based marketing
- For instance the prices of products during Diwali, New Year, etc go down & customers are offered with great deals. Such strategies are adopted so as to enhance revenues plus to maintain the goodwill amongst buyers.
- Consumer durable manufacturing companies like LG, Samsung are expecting around 20-30 per cent growth in sales during festive season (September-October) in 2016.

#### Focus on energy efficiency
- Companies are focusing on energy efficiency in their range, pushing the low cost of ownership.
- Syska LED launched its advertising campaign in Mumbai, it aimed to promote energy efficient LED tube lights & bulbs which could save up to 20 per cent of electricity.
- In January 2016, LG electronics announced that the company will focus on premium inverter split air-conditioners that are more energy efficient & would discontinue its regular split air-conditioners, which account for almost 80 per cent of the Indian market.

GROWTH DRIVERS
CONSUMER DURABLES

STRONG DEMAND AND POLICY SUPPORT DRIVING INVESTMENTS

Growing demand

- Higher real disposable incomes
- Easy consumer credit
- Growing working population

Inviting

Policy support

- Setting up of EHTPs
- Increasing liberalisation, favourable FDI climate
- Policies like National Electronics Mission and Digitisation of television
- Reforms like simplified labor laws & Technology Upgradation Fund Scheme

Resulting in

Increasing investments

- Expanding production and distribution facilities in India
- Increased R&D activity
  Govt to spend Rs 60,000 cr more on rural jobs
- Providing support to global projects from India

INCOME GROWTH WILL BE THE KEY DRIVER OF DEMAND FOR CONSUMER DURABLES

* Demand for consumer durables in India has been growing on the back of rising incomes; this trend is set to continue even as other factors like rising rural incomes, increasing urbanization, & changing lifestyles aid demand growth in the sector

* Significant increase in discretionary income & easy financing schemes have led to shortened product replacement cycles & evolving life styles where consumer durables, like ACs & LCD TVs, are perceived as utility items rather than luxury possessions

* Growth in demand from rural & semi-urban markets to outpace demand from urban markets

* Growth in online retailing is a key factor to reach out as a newer channel for buyers, with increase in demand

* Per capita income is expected to expand at a CAGR of 8.6 per cent for the period 2015-19

* Non metro markets namely Vishakhapatnam, Bhopal, Vadodara, Chandigarh etc. have grown rapidly in regard to consumption, becoming the main target markets, posing a huge potential transforming themselves into new business centers as compared to metro cities.

**Source:** IMF, World Bank, TechSci Research

**Note:** E – Estimated  
F: Forecast
## POLICY SUPPORT AIDING GROWTH IN THE SECTOR

### Customs duty relaxation
- Reduced custom duty on certain inputs like metals, wires, cables, refrigerators compressor parts will promote the production of consumer electronics in India. Custom duty on LCD/LED TV reduced to nil from 10 per cent

### Reduced central excise
- A reduction (12 per cent to 10 per cent) in Central Excise duty was definitely the way forward to support demand & fuel growth in consumer durable sector. Industry seeks relaxation in excise duty  
- Excise duty is being reduced to 6 per cent on LED lamps & LEDs required for manufacture of such lamps. Reduction in SAD from 4 per cent to nil, in import would also help LED manufacturers

### Encouragement to FDI
- FDI into single brand retail has been increased from 51 per cent to 100 per cent; the government is planning to hike FDI limit in multi-brand retail to 51 per cent

### EPCG, EHTP schemes
- EPCG allows import of capital goods on paying 3.0 per cent customs duty  
- EHTP provides benefits, such as duty waivers & tax incentives, to companies which replace certain imports with local manufacturing

### National Electronics Policy 2012 & Government Initiatives
- Aims to create an ecosystem for a globally competitive electronic manufacturing sector & to achieve a turnover of about USD400 billion by 2020  
- As of March 2017, the government is planning to release an amount of US$3.57 billion allocated for the Mahatma Gandhi National Rural Employment Guarantee Scheme (MGNREGS) for FY2017-18, for executing infrastructure plans in rural areas of the country.

FDI limit

100%
100%
51%

Source: DIPP, TechSci Research
APPENDIX: TWO KEY RETAIL RELATED FDI POLICIES THAT WILL IMPACT CONSUMER DURABLES

51 per cent FDI in multi brand retail
Status: Approved

- Minimum investment cap is USD100 million
- 30 per cent procurement of manufactured or processed products must be from SMEs
- Minimum 50 per cent of the first minimum tranche of USD100 million must be invested in back-end infrastructure (logistics, cold storage, soil testing labs, seed farming & agro-processing units)
- Removes the middlemen & provides a better price to farmers
- 50 per cent of the jobs in the retail outlet could be reserved for rural youth & a certain amount of farm produce could be required to be procured from poor farmers
- To ensure the Public Distribution System (PDS) and Food Security System (FSS), government reserves the right to procure a certain amount of food grains
- Consumers will receive higher quality products at lower prices & better service

100 per cent FDI in single brand retail
Status: Policy passed

- Products to be sold under the same brand internationally
- In 2015, according to revised FDI regulations single brand retail companies if desire to sell on ecommerce platform would be allowed only if they have licence for setting up physical outlets
- Sale of multi brand goods is not allowed, even if produced by the same manufacturer
- For FDI above 51 per cent, 30 per cent sourcing must be from SMEs
- Any additional product categories to be sold under single brand retail must first receive additional government approval
- “Make in India” initiative to further strengthen the investments coming to India

Whirlpool accounts for over 25 per cent of the consumer durables market in India

India is currently the fifth largest market for Whirlpool

Whirlpool entered the Indian market in late 1980s through a joint venture with TVS group

Whirlpool acquired Kelvinator India Ltd in 1995 & marked an entry into Indian refrigerator market as well

Whirlpool brand stretches from the mass to premium segments; the company plans to launch a new brand, KitchenAid, which would operate in the super-premium appliances segment

In 2015, Whirlpool announced its plans to invest more than USD156.3 million in India, with majority of it earmarked for innovation

Net revenues generated from sales in FY16 is USD532.86 million
