Favourable demographics and rise in income level will boost the FMCG market.

The FMCG market in India is expected to grow at a CAGR of 23.15% to reach US$ 103.70 billion by FY21 from US$ 68.38 billion in FY18.

FMCG sector is the fourth-largest sector in the Indian economy.

FMCG sector is expected to grow at 5-6% rate in 2020.

Final consumption expenditure is set to increase at a CAGR of 25.44% during 2017-2021. It is expected to reach nearly US$ 3.60 trillion by 2020 from US$ 1.82 trillion in 2017.

Rise in rural consumption will drive the FMCG market. It contributes around 36% to the overall FMCG spending.

The rural FMCG market in India is expected to grow to US$ 220.00 billion by 2025 from US$ 23.63 billion in FY18.

Source: World Bank, Emami Reports, Dabur Reports, AC Nielsen, CRISIL, Nielsen Report
1. Growing demand
► Packaged food market in India is expected to double to US$ 70 billion by 2025.
► India’s contribution to global consumption is expected to more than double to 5.8% by 2020.
► Rural India is witnessing increased demand for quality goods and services driven by upgraded distribution channels of FMCG companies.

2. Higher investments
► In January 2021, Reckitt Benckiser announced its Rs. 45 crore (US$ 6.2 million) strategic investment in Bombay Shaving Company, a grooming products venture.

3. Policy support
► Investment approval of up to 100% foreign equity in single brand retail and 51% in multi-brand retail.
► The union government’s production-linked incentive (PLI) scheme gives companies a major opportunity to boost exports.
► The minimum capitalisation for foreign FMCG companies to invest in India is US$ 100 million.

4. Attractive opportunities
► Low penetration levels in rural market offers room for growth.
► Dabur stepping-up product launches to sell only on E-commerce platforms.
► Disposable income in rural India has increased because of the direct cash transfer scheme.
► Exports is another growing segment.
► E-commerce segment is forecast to contribute 11% to the overall FMCG sales by 2030.

Market Overview
Evolution of FMCG in India

- FMCG is the fourth-largest sector in the Indian economy.
- India’s household and personal care is the leading segment, accounting for 50% of the overall market. Healthcare (31%) and food and beverages (F&B) (19%) comes next in terms of market share.
- Growing awareness, easier access and changing lifestyles have been the key growth drivers for the sector.
- The number of internet users in India is likely to reach 1 billion by 2025.
- FMCG industry is expected to grow 5-6% rate in 2020.

**2018**
- FMCG market reached US$ 52.75 billion in FY18.
- The rural FMCG market reached US$ 23.63 billion in FY18.
- FMCG sales at India’s organised retail stores rose 22 % y-o-y in 2018.

**Forecast**
- FMCG market is expected reach US$ 103.70 billion by the end of 2020.
- The rural FMCG market is expected to grow to US$ 220 billion by 2025.
- The online FMCG market is forecast to reach US$ 45 billion by the end of 2020.

Three main segments of FMCG

**F&B**
- It accounts for 19% of the sector.
- This segment includes health beverages, staples/cereals, bakery products, snacks, chocolates, ice cream, tea/coffee/soft drinks, processed fruits and vegetables, dairy products, and branded flour.

**Healthcare**
- It accounts for 31% of the sector.
- This segment includes OTC products and ethnicals.

**Household and personal care**
- It accounts for 50% of the sector.
- Includes oral care, hair care, skin care, cosmetics/deodorants, perfumes, feminine hygiene and paper products, fabric wash, and household cleaners.

*Note: OTC is over the counter products; ethnicals are a range of pharma products, Share % as of FY18*

*Source: Economic Times*
Strong growth in Indian FMCG sector

- Revenue of FMCG sector reached US$ 103.7 billion in 2020.
- FMCG sector will gain support for growth from Inland Waterways Authority of India (IWAI) multi-modal transportation project of freight village at Varanasi, which will bring together retailers, warehouse operators and logistics service providers, and investment worth Rs. 1.7 billion (US$ 25.35 million).

Source: Dabur, AC Nielsen, Euromonitor International, ICICI securities, Nielsen India
Urban market accounts for major chunk of revenues

- Accounting for a revenue share of around 55%, urban segment is the largest contributor to the overall revenue generated by the FMCG sector in India.
- Rural segment is growing at a rapid pace and accounted for a revenue share of 45% in the overall revenues recorded by FMCG sector in India. FMCG products account for 50% of total rural spending.
- In the last few years, the FMCG market has grown at a faster pace in rural India compared to urban India.
- Demand for quality goods and services is on an upward trajectory in rural areas on the back of improved distribution channels of manufacturing and FMCG companies.
- From October 2020 to December 2020, the FMCG market rose 7.1%, driven by food items, health, hygiene and rural areas.

Increasing online users boost online FMCG sales

- India’s increasing internet penetration and rising digital maturity along with developing infrastructure has helped boost online transactions.
- The online FMCG market is forecast to reach US$ 45 billion in 2020 from US$ 20 billion in 2017, backed by growth in online users from 90 million in 2017 to 200 million in 2020E.
- Around 72% Indian consumers are most likely to shop online locally for premium products.
- The Indian online grocery market is estimated to exceed sales of about Rs. 22,500 crore (US$ 3.19 billion) in 2020, a significant jump of 76% over the previous year.
- The gross merchandise value (GMV) of the online grocery segment in India is expected to increase 18 times over the next five years to reach US$ 37 billion by FY25.

Note: E - Estimated

Strategies Adopted
1. **Strengthen rural network**
   - Dabur India has grown its rural network to over 52,000 villages in March 2020, from 44,000 villages in March 2019. For 2020-21, the company aims to have up to 60,000 villages.
   - Other players such as Marico is introducing bottom-of-the-pyramid products to its portfolio of value-added hair oil, helping the business reach rural markets. Rural penetration will continue to be important for Godrej Consumer Goods Ltd. Over the next three years, the organisation plans to extend its presence to 80,000 villages in key states.

2. **Direct-to-consumer channels**
   - Businesses such as Dabur India and Marico Ltd. have introduced retail telephone services and rolled out a dedicated app that enables orders to be placed by kiranas.
   - In January 2021, Tata Consumer Products announced that it is looking for ways to add more of its beverages’ portfolio onto a direct-to-consumer platform to capture the urban online market.

3. **New product launches**
   - In January 2021, Tata Consumer Products introduced two new products, TATA Tea Tulsi Green and TATA Tea Gold Care, and reformulated its existing Tetley Green Tea, with added Vitamin C.
   - In January 2021, Del Monte has launched a special 1 litre pouch pack in India, priced at Rs. 250 (US$ 3.42), thereby making olive oil affordable to consumers.

4. **Expansion**
   - In December 2020, FreshToHome (FTH), which sells online fresh fish and meat, announced that it aims to more than double its revenue over the next 12 months to Rs 1,500 crore, supported by business-wide expansion, including its 'FTH Daily' service.

*Source: News Article*
New market entry

- In January 2021, FMCG businesses in India are planning to expand their oral care portfolio by entering new and niche categories such as mouth sprays, ayurvedic mouth cleansers and mouthwashes to meet the rising consumer demand for hygiene products.
  - For example, Pulling oil, an ayurvedic concoction used as a morning oral cleansing ritual based on centuries-old Ayurvedic regimen, was launched by companies such as Colgate Palmolive (India) Ltd. and Dabur India.
- In December 2020, Godrej Consumer Products Limited (GCPL), under its Godrej ProClean brand, has ventured into home cleaning products to meet the rising demand for cleaning and hygiene products among Indian consumers. The home cleaning products segment, which includes branded floor, toilet and bathroom cleaners, is estimated to be ~ Rs. 2,600 crore (US$ 354.05 million).

E-commerce

- FMCG companies are focusing on strengthening their e-commerce engagement. An Ayurveda baby care range has been introduced by Dabur, which will be sold only on e-commerce platforms. With its contribution expanding from 1.5% to 5.6%, the e-commerce division of the group has more than doubled over the previous year. Similarly, in the first quarter of FY21, Marico's e-commerce sector has grown 37% YoY, while Emami’s e-commerce business doubled to >100%.

Green initiatives

- FMCG companies are looking to invest in energy efficient plants to benefit the society and lower costs in the long term.
- Procter & Gamble (P&G) India has set up a Rs. 200 crore (US$ 28 million) environmental sustainability fund in the country to offer sustainable solutions, such as plastic-free packaging and environment-friendly logistics services, in partnership with Indian businesses.
- In November 2020, NIVEA, by launching the first ever e-commerce ready-to-ship kit, 'NIVEA CARE BOX', in collaboration with Amazon India, has taken a step towards being more sustainable through its packaging.

Investments

- In January 2021, Reckitt Benckiser announced its Rs. 45 crore (US$ 6.2 million) strategic investment in Bombay Shaving Company, a grooming products venture.
- In November 2020, Bahrain’s Investcorp stated it had invested in Xpressbees, an Indian start-up in logistics, as part of a group of local and global investors. With more than 1,000 customers across sectors including e-commerce, pharmaceuticals, consumer goods, retail, manufacturing, electronics and consumer durables, Xpressbees has presence in >2,000 cities and towns in India. The size of the investment was not disclosed.
- On November 4, 2020, Amway India announced plans to invest Rs. 150 crore (US$ 20.16 million) to improve manufacturing automation and home delivery and enhance its digital capabilities.
- In October 2020, the Government of Karnataka proposed to develop Hubballi-Dharwad as the FMCG cluster. The development has been proposed in three phases, with each phase comprising an investment of Rs. 2,500 crore (US$ 341 million) from 50 FMCG companies (an average investment of US$ 6.8 million each). According to Large and Medium Industries Minister of Karnataka Mr. Jagadish Shettar, the cluster is expected to generate annual turnover of over Rs. 25,000 crore (US$ 3.4 billion).
- PepsiCo India announced to double its business from the snacks segments in October 2020. The company has increased investment in its new greenfield snacks plant in Uttar Pradesh from Rs. 500 crore (US$ 68 million) to about Rs. 814 crore (US$ 111 million)—generating 1,500 direct/indirect jobs and enabling a local sourcing ecosystem.
- In October 2020, Britannia has signed an Memorandum of Understanding (MoU) with the Tamil Nadu government, stating increase of investment in the state from Rs. 300 crore (US$ 41 million) to Rs. 550 crore (US$ 75 million) over a period of seven years.
- In October 2020, Nestle India announced plan to infuse Rs. 2,600 crore (US$ 348.82 million) into its eight manufacturing plants for enhancing production capabilities over the next four years.

International Partnership

- In February 2021, Food and snack company, Haldiram’s partnered with Africa’s Futurelife to bring its nutritional food product range to India. The two companies launched a range of four products—Smart Foods, Smart Oats and Ancient Grains, Crunchy Granola and High Protein.
Growth Drivers
Growth drivers for India’s FMCG sector

2. INCREASE IN PENETRATION

- Low penetration levels of branded products in categories like instant foods indicating a scope for volume growth.
- Investment in this sector attracts investors as FMCG products have demand throughout the year.
- Increase in food parks to 17, food processing capacity to 1.41 million and food labs to 42.
- ITC to invest Rs. 700 crore (US$ 100 million) in food parks in Madhya Pradesh.
- As of February 2021, out of 39 Mega Food Park projects, 22 are operational, 15 are under implementation and 2 are in-principle approval.

3. RURAL CONSUMPTION

- Rural consumption has increased, led by a combination of increase in income and higher aspiration levels. There is an increased demand for branded products in rural India.
- Huge untapped rural market.

4. EASY ACCESS

- Availability of products has become way easier as internet and different channels of sales has made the accessibility of desired product to customers more convenient at required time and place.
- Online grocery stores and online retail stores like Grofers, Flipkart, and Amazon are making FMCG products more readily available.

1. SHIFT TO ORGANISED MARKET

- Organised sector is expected to grow as the share of unorganised FMCG market has seen a fall with increased level of brand consciousness.
- Growth in modern retail will augment the growth of organised FMCG sector.
- Post GST and demonetisation, modern trade share grew to 10% of the overall FMCG revenue as of August 2018.

Note: GST: Goods and Services Tax
Source: Dabur, Nielsen
Higher incomes aid growth in urban and rural markets

- Incomes have risen at a brisk pace in India and will continue rising given the country’s strong economic growth prospects.
- India’s GDP per capita at current prices is expected to increase from US$ 1,761.63 in 2016 to US$ 3,277.28 in 2024.
- An important consequence of rising incomes is growing appetite for premium products, primarily in the urban segment.
- As the proportion of ‘working age population’ in total population increases, per capita income and GDP are expected to surge.

**Note:** F- Forecasted  
**Source:** IMF World Economic Outlook Database April 2019
On November 11, 2020, Union Cabinet approved the production-linked incentive (PLI) scheme in 10 key sectors (including electronics and white goods) to boost India’s manufacturing capabilities, exports and promote the ‘Atmanirbhar Bharat’ initiative.

Developments in the packaged food sector will contribute to increased prices for farmer and reduce the high levels of waste. In order to provide support through the PLI scheme, unique product lines—with high-growth potential and capabilities to generate medium- to large-scale jobs—have been established.

Policy and regulatory framework

Relaxation of license rules

- Industrial license is not required for almost all food and agro-processing industries, barring certain items such as beer, potable alcohol and wines, cane sugar and hydrogenated animal fats and oils as well as items reserved for exclusive manufacture in the small-scale sector.

FDI in organised retail

- The Government approved 51% FDI in multi-brand retail in 2006, which will boost the nascent organised retail market in the country.
- It also allowed 100% FDI in the cash and carry segment and in single-brand retail.

SETU scheme

- Government has initiated Self Employment and Talent Utilisation (SETU) scheme to boost young entrepreneurs. Government has invested US$ 163.73 million for this scheme.

Source: SBI
New goods and service tax (GST) would simplify tax structure

2. PRICING AND PROFITABILITY
- Elimination of tax cascading is expected to lower input costs and improve profitability.
- Application of tax at all points of supply chain is likely to require adjustments to profit margins, especially for distributors and retailers.

3. SYSTEM CHANGES AND TRANSITION MGMT
- Changes need to be made to accounting and IT systems in order to record transactions in line with GST requirements and appropriate measures need to be taken to ensure smooth transition to the GST.
- It is estimated that India will gain US$ 15 billion a year by implementing GST.

1. SUPPLY CHAIN STRUCTURE
- Introduction of GST as a unified tax regime will lead to re-evaluation of procurement and distribution arrangements.
- Removal of excise duty on products would result in cash flow improvements.
- The rate of GST lies between 0-18% on services and 0-28% on goods.

4. CASHFLOW
- Tax refunds on goods purchased for resale implies a significant reduction in the inventory cost of distribution.
- Distributors are also expected to experience cash flow from collection of GST in their sales before remitting it to the Government at the end of the tax-filing period.

Source: GST India
Boosts in FDI inflows and investments

- 100% FDI is allowed in food processing and single-brand retail and 51% in multi-brand retail.

- This would bolster employment and supply chains and provide high visibility for FMCG brands in organised retail markets, bolstering consumer spending and encouraging more product launches.

- The sector witnessed healthy FDI inflow of US$ 17.8 billion from April 2000 to September 2020.

- Investment intentions related to FMCG sector arising from paper pulp, sugar, fermentation, food processing, vegetable oils and vanaspati, soaps, cosmetics and toiletries industries worth Rs. 19,846 crore (US$ 2.84 billion) was implemented until December 2019.

- In November 2020, Flipkart announced the launch of its first grocery fulfilment centre in Lucknow that will create over 500 direct jobs. The facility will support grocery products delivery to Lucknow, Kanpur and Allahabad.

- In June 2020, Convergent Finance LLP, the Mumbai-based private equity fund, invested Rs. 107 crore (US$ 14.1 million) in Jyoti International Foods, an end-to-end supply chain solutions provider in the Indian food services industry.

- In June 2020, Milkbasket, a grocery delivery platform, raised US$ 5.5 million as part of its ongoing series B round led by Inflection Point Ventures.

Source: Bloomberg, Economic Times, Business Standard, News Article
1. Sourcing base
- Indian and multinational FMCG players can leverage India as a strategic sourcing hub for cost-competitive product development and manufacturing to cater to international markets.

2. Penetration
- Low penetration levels offer room for growth across consumption categories.
- Major players are focusing on rural markets to increase their penetration in those areas.

3. Online FMCG
- E-commerce is likely to contribute 5% or US$ 4 billion to FMCG sales by 2022

4. Premium products
- With the rise in disposable income, mid- and high-income consumers in urban areas have shifted their purchase trend from essential to premium products.
- Premium brands are manufacturing smaller packs of premium products. Example: Dove soap is available in 50g packaging.
- Nestle is looking to expand its portfolio in premium durables cereals, pet care, coffee, and skin health accessing the potential in India.

5. Innovative products
- Indian consumers are highly adaptable to new and innovative products. For instance, there has been an easy acceptance of men’s fairness creams and bread grooming products, flavoured yoghurt, cuppa mania noodles, gel based facial bleach, drinking yogurt, sugar free chyawanprash.

6. Rural market
- Leading players of consumer products have a strong distribution network in rural India. They also stand to gain from the contribution of technological advances like internet and e-commerce to better logistics.
- Rural FMCG market size is expected to touch US$ 220 billion by 2025.
