ADVANTAGE INDIA
Rising income is driving the demand for financial services across income brackets.

Financial inclusion drive from the Reserve Bank of India (RBI) has expanded the target market to semi-urban and rural areas.

Investment corpus in Indian insurance sector might rise to US$ 1 trillion by 2025.

Credit, insurance and investment penetration is rising in rural areas.

HNWI participation is growing in the wealth management segment.

Lower mutual fund penetration of 5–6 per cent reflects latent growth opportunities.

India benefits from a large cross-utilisation of channels to expand reach of financial services.

Maharashtra has launched its mobile wallet facility, allowing transferring of funds from other mobile wallets. Maharashtra is the first state to launch it.

Government has approved 100 per cent FDI for insurance intermediaries.

Gold Monetization Scheme, 2015, Atal Pension Scheme, Pradhan Mantri Suraksha Bima Yojana, and Pradhan Mantri Jeevan Jyoti Bima Yojana have been launched to aid growth.

FDI in insurance sector could be increased to 74 per cent from 49 per cent.

STRATEGIES ADOPTED

| Innovation | In the insurance industry, several new and existing players have introduced innovative insurance-based products, value add-ons and services. Few foreign companies have also entered the domain, including Tokio Marine, Aviva, Allianz, Lombard General, AMP, New York Life, Standard Life AIG and Sun Life.  
|            | HDFC Capital Advisors Ltd has raised US$ 550 million for its second affordable housing fund, HDFC Capital Affordable Real Estate Fund-2 (H-CARE-2), which will invest in affordable and mid-income and residential projects in 15 cities across India. |
| Merger and Acquisition (M&A) | In March 2020, ClearTax, an online tax filing platform, acquired GST software and services business of Karvy Data Management Services for an undisclosed amount.  
|            | In April 2020, Axis Bank acquired an additional 29 per cent stake in Max Life Insurance. |
| Stepped up IT expenditure | The explosion of mobile phones, uptake of technologies such as cloud computing and rising pace of convergence and interconnectivity have led companies in the financial services industry to ramp up investment in information technology (IT) to better serve their end-customers. |
| Expanding geographical presence | Indian companies are strengthening their footprint on foreign shores, enhancing geographical exposure. |

GROWTH DRIVERS AND OPPORTUNITIES
GROWTH DRIVERS IN FINANCIAL SECTOR

Government initiatives

- In June 2020, Minister for Finance and Corporate Affairs, Ms Nirmala Sitharaman formally launched the facility for instant allotment of PAN (on near to real time basis) through Aadhaar based e-KYC.
- In July 2020, Minister for Micro, Small and Medium Enterprise (MSMEs), Mr Nitin Gadkari launched www.restartindia.in, a mentoring platform primarily aimed at aiding MSMEs to restart businesses across the country.

Shift to financial asset class

- Financial sector growth can be attributed to rise in equity markets and improvement in corporate earnings.
- By 2022, India’s personal wealth is forecast to reach US$ 5 trillion at a CAGR of 13 per cent. It stood at US$ 3 trillion in 2017.

Others

- In 2019, foreign portfolio investors (FPIs) investment in Indian equities touched a five-year high of Rs 101,122 crore (US$ 14.47 billion).
- Investment by FPIs in India’s capital market reached a net Rs 12.52 lakh crore (US$ 177.73 billion) between FY02-21 (till August 10, 2020).

CONTINUED GROWTH IN EQUITIES AND INNOVATIVE PRODUCTS

- The Indian equity market is expanding in terms of listed companies and market capitalization, widening the playing field for brokerage firms. Sophisticated products segment is growing rapidly, reflected in the steep rise in growth of derivatives trading.
- With the increasing retail penetration, there is an immense potential to tap the untapped market. Growing financial awareness is expected to increase the fraction of population participating in this market.
- Total wealth held by individuals in unlisted equities is projected to grow at a CAGR of 19.54 per cent to reach Rs 17.64 lakh crore (US$ 273.69 billion) by FY22.
- Total value of Private Equity (PE)/ Venture Capital (VC) investment grew 44 per cent over the past three years in value terms to reach US$ 48 billion in 2019.
- Total number of companies listed on NSE at end of May 2019 was 1,942.
- Turnover from derivatives segment reached Rs 3,453.9 lakh crore (US$ 49.41 trillion) in FY20 and stood at US$ 19.27 trillion in FY21 (till July 2020).

RISING SCOPE FOR WEALTH MANAGEMENT

- India is one of the fastest growing wealth management markets in the world.
- According to Knight Frank report, India saw the largest growth in the number of ultra net worth individuals in 2019.
- The number of ultra-HNWI in India will grow 73 per cent from 5,986 in 2019 to 10,354 by 2024.

**Investor protection**
- The regulatory environment for fiduciary duties in wealth management is evolving. Players will benefit greatly from quickly adopting new investor protection measures.

**Brand building**
- Brand building coupled with partnership based model will improve the advisory penetration. Greater focus on transparency will speed up the process.

**Innovation**
- Investment in required technologies, imbibing state-of-the-art best practices of advisory and creating customised and innovative products will enable growth.

INSURANCE TO BENEFIT FROM WIDENING REACH ACROSS SEGMENTS

- It is targeted at rural segment, addressing about two-thirds of Indian population.
- The policy incentives acts as drivers for the growth of micro-insurance sector.

- Only one per cent population covered currently, suggesting that the vast market is yet to be tapped. Health insurance accounts for 1.2 per cent of the total healthcare spend.

- Passenger car sales in the country stood at 2.77 million units in FY20.
- Increasing number of insurance registered for passenger cars and for construction activities will rise with India’s infrastructure growth plans.

- Demand for agricultural and livestock insurance growing on the back of rising awareness among rural population.

Note: F – Forecasts, E – Estimated, Deloitte Center for Financial Services
HUGE UNTAPPED POTENTIAL AT THE ‘BOTTOM OF THE PYRAMID’

- Two-thirds of India’s population lives in rural areas where financial services have made few inroads so far. Rural India, however, has seen steady rise in incomes creating an increasingly significant market for financial services.
- There are several standalone networks of SHG, NGO’s and MFI’s in different parts of rural India. Cross-utilisation of these channels can facilitate faster penetration of a wider suite of financial services in rural India.
- Increasing use of technology to reach rural India is the paradigm-shifting enabler. Internet kiosk-based channels are expected to become the bridge that connects rural India to financial services.

| Credit          | Rural credit segment is a large market, which can be tapped by ensuring timely loans that are critical for the agricultural sector.  
                  | Self Help Groups and NGOs are useful vehicles to make inroads into rural India. |
|-----------------|---------------------------------------------------------------------------------|
| Investment      | Safe investment options have a potential to tap into rural household savings.  
                  | Some private players are producing innovative products like third party money market mutual funds to cater to rural investment needs. |
| Insurance       | Agricultural, livestock and weather insurance are potentially large markets in rural India.  
                  | Harnessing existing networks of MFIs and NGOs can speed up the process.
