INSURANCE

EXECUTIVE SUMMARY

Rapidly growing insurance segments

• The domestic life insurance industry registered 22.55% growth for new business premium in financial year 2015-16, generating a revenue of USD20.34 billion largely due to the high growth in the group single premium policy.

• The non-life insurance premium market grew at a CAGR of 12.1% over FY04-16\(^{(1)}\), from USD3.4 billion in FY04 to USD13.35 billion in FY16\(^{(1)}\)

Increasing private sector contribution

• The market share of private sector companies in the non-life insurance premium market rose from 13.12% in FY03 to 45.4% in FY16\(^{(1)}\)

Crop, health and motor insurance to drive growth

• In 2015, crop insurance market in India is the largest in the world and covers around 32 million farmers; which accounted for nearly 19% of the total farmers in the country

• Strong growth in the automotive industry over the next decade to be a key driver of motor insurance

INSURANCE

ADVANTAGE INDIA
INSURANCE

Strong demand

• Growing interest in insurance among people; innovative products and distribution channels aiding growth
• Increasing demand for insurance offshoring
• Growing use of internet has started increasing demand

Attractive opportunities

• Life insurance in low-income urban areas
• Health insurance, pension segment
• Strong growth potential for microinsurance, especially from rural areas

Increasing investments

• As of March 2016, rising participation by private players led to increase in their market share in the life insurance market, with the market share reaching 29.6% in FY16 from 2% in FY03
• Increase in FDI limit to 49% from 26%, as proposed in 2012, will further fuel investments

Policy support

• Tax incentives on insurance products
• Passing of Insurance Bill gives IRDA flexibility to frame regulations
• Clarity on rules for insurance IPOs would infuse liquidity in the industry
• Repeated attempts to make the sector more lucrative for foreign participants

Advantage India

FY20E
Market size: USD280 billion
INSURANCE

MARKET OVERVIEW AND TRENDS
The life insurance sector was made up of 154 domestic life insurers, 16 foreign life insurers and 75 provident funds.

All life insurance companies were nationalized to form LIC in 1956 to increase penetration and protect policy holders from mismanagement.

The non-life insurance business was nationalized to form GIC in 1972.

Malhotra Committee recommended opening up the insurance sector to private players.

IRDA, LIC and GIC Acts were passed in 1999, making IRDA the statutory regulatory body for insurance and ending the monopoly of LIC and GIC.

Post liberalisation, the insurance industry recorded significant growth; the number of private players increased to 44 in 2012\(^{(1)}\).

The industry has been spurred by product innovation, vibrant distribution channels, coupled with targeted publicity and promotional campaigns by the insurers.

In December 2014, Government approved the ordinance increasing FDI limit in Insurance sector from 26% to 49%. This would likely to attract investment of USD7-8 billion.

In 2015, Government introduced Pradhan Mantri Suraksha Bima Yojna and Pradhan Mantri Jeevan Jyoti Bima Yojana.

Government introduced Atal Pension Yojana and Health insurance in 2015.

As per Union Budget 2016-17, new health insurance scheme under the National Health Protection Scheme has been introduced.

Notes: \(^{(1)}\) As of September 2012, LIC - Life Insurance Corporation of India, GIC - General Insurance Corporation of India, IRDA - Insurance Regulatory and Development Authority.
IRDA GOVERNS THE INDIAN INSURANCE SECTOR

- Insurance Regulatory and Development Authority (IRDA)
  - Established in 1999 under the IRDA Act
  - Responsible for regulating, promoting and ensuring orderly growth of the insurance and re-insurance business in India

INDIA’S INSURANCE MARKET CONTINUES TO BE STRONG

- Growth of non life insurance premium experienced a slowdown in FY15 but premiums are expected to grow in emerging economies by 10.7% in 2016 and 2017. Global premium increased by 3.3% in 2015.

- The insurance industry is expected to rise and reach USD280 billion in 2020. In 2015, the industry comprised of 24 private players while Life Insurance Corporation constituted 71% of the insurance market in the country.

- In 2016, Individual single premiums received totaled to around USD1.02 billion, increasing from USD0.16 billion in 2015.
The total insurance market expanded from USD23 billion in FY05 to USD75.68 billion in FY15.

Over FY02–FY15, total gross written premiums increased at a CAGR of 12.6%.

Gross premium written in India for non life insurance sector for FY15 is USD13.9 billion and in FY16 (till November 2015), the gross premium written in India for non life insurance sector stood at USD10.2 billion.

During the month of September 2016, new business premium of life insurers was recorded at USD2.56 billion, showing a growth of 61 per cent on year-on-year basis.

Source: Insurance Regulatory and Development Authority, TechSci Research
Note: CAGR - Compound Annual Growth Rate
The life insurance market grew from USD10.5 billion in FY02 to USD56.05 billion in FY16.

Over FY02–FY16, life insurance premiums expanded at a CAGR of 13.10%.

The life insurance industry has the potential to grow 2-2.5 times by 2020 in spite of multiple challenges supported by long-term trends and fundamentals underlying household savings.

The life insurance premium market expanded at a CAGR of 11.93%, from USD14.5 billion in FY04 to USD56.05 billion in FY16.

During the first half of financial year 2016-17, Life Insurance industry reported a 20 per cent growth in overall Annual Premium Equivalent (APE).
Insurance density in India increased from 3.57 in FY05 to 11.23 in FY15 at a CAGR of 12.1%.

Insurance penetration reached 3.4% in FY16.

**Source:** Insurance Regulatory and Development Authority (IRDA), TechSci Research

**Notes:** Life insurance density* is defined as the ratio of premium underwritten to the total population in a given year, CAGR - Compound Annual Growth Rate

*For updated information, please visit [www.ibef.org](http://www.ibef.org)
Over the years, share of private sector in life insurance segment has grown from around 2% in FY03 to 29.6% in FY16.

**Share of public and private sector in life insurance segment (%)**

- **FY03**: 98.0% Public, 2.0% Private
- **FY16**: 70.4% Private, 29.6% Public

Notes: *Growth rate in INR terms, Linked Plans - In linked plans, a part of the investment goes towards providing you life cover while the residual portion is invested in a fund which in turn invests in stocks or bonds; the value of investments alters with the performance of the underlying fund.

In Non-Linked plans, a major chunk of investible funds are in debt instruments, giving steady and almost assured returns over the long term.

** Data for FY15 is till August 2015
STRONG GROWTH IN NON-LIFE INSURANCE MARKET

* The non-life insurance market grew from USD2.6 billion in FY02 to USD13.4 billion in FY16
* Over FY02–16, non-life insurance premiums increased at a CAGR of 7.48%
* The number of policies issued increased from 43.6 million in FY03 to 126 million in FY15, at a CAGR of 9.2%

Growth in non-life insurance premium (USD billion)

Number of non-life insurance policies (million)

Source: IRDA, TechSci Research
Notes: CAGR - Compound Annual Growth Rate
FY16: Till November 2015
The non-life insurance penetration rate is in the range of 0.64–0.7% over 2004–15

Non life insurance density increased from USD4.0 in FY04 to USD10.42 in FY15 at a CAGR of 9.09%

As per IRDA, in order to increase the market penetration in health insurance people are needed to be educated about the benefits of health insurance along with providing incentives and free check-ups.

Source: IRDA Annual Report, Swiss Re, TechSci Research
Note: CAGR - Compound Annual Growth Rate; IRDA Chairman, Mr. T S Vijayan
In FY16\(^{(1)}\), motor insurance accounted for 39.04% of non-life insurance premiums earned in India (down from 41% in FY06), and was valued at USD4.87 billion till November 2016.

At USD2.95 billion (till November 2016), the health segment seized 23.63% share in gross direct premiums earned in the country.

Private players accounted for a share of around 45.4% in the overall revenue generated in non-life insurance sector while public companies garnering around 54.6% share by March 2016.

Major private players are ICICI Lombard, Bajaj Allianz, IFFCO Tokio, HDFC Ergo, Tata-AIG, Reliance, Cholamandalam, Royal Sundaram and other regional insurers.

NOTABLE TRENDS IN THE INSURANCE SECTOR

Emergence of new distribution channels
- New distribution channels like bancassurance, online distribution and NBFCs have widened the reach and reduced costs
- Firms have tied up with local NGOs to target lucrative rural markets

Growing market share of private players
- In the life insurance segment, share of private sector in the total premium increased to 29.6% in FY16 from 2.0% in FY03
- In the non-life insurance segment, share of private sector increased to 41.2% in FY16 from 14.5% in FY04

Launch of innovative products
- The life insurance sector has witnessed the launch of innovative products such as Unit Linked Insurance Plans (ULIPs)
- Other traditional products have also been customised to meet specific needs of Indian consumers

Mounting focus on EV over profitability
- Large insurers continue to expand, focusing on cost rationalisation and aligning business models to realise reported Embedded Value (EV), and generate value from future business rather than focus on present profits

Notes: NBFC - Non Banking Financial Company, NGO - Non-Governmental Organisation, EV - Embedded Value,

INSURANCE

STRATEGIES ADOPTED
INSURANCE

STRATEGIES ADOPTED

Cost optimisation

- Players in industry are trying to come up with innovative low cost products to achieve cost advantage
- They are investing in Information Technology to automate various processes and cut costs without affecting service delivery. It is estimated that digitisation will reduce 15-20% of total cost for life insurance and 20-30% for non-life insurance
- From October 2016, IRDAI has mandated having an E-insurance (electronic insurance) account to purchase insurance policies

Differentiation

- Companies are trying to differentiate themselves by providing wide range of products with unique features. For example, New India Assurance launched Farmers’ Package Insurance to covering farmer’s house, assets, cattle etc. United India launched Workmen Medicare Policy to cover hospitalisation expenses arising out of accidents during and in the course of employment

Focus

- Focus on providing one kind of service help insurance companies in differentiation. For example, SBI is concentrating on individual regular premium products as against single premium and group products

Insurance (Amendment) Law 2015

- The Insurance Law (Amendment) Bill, was passed in 2015 raises the foreign investment cap in the sector from 26 percent to 49 percent

Source: TechSci Research

**DEMAND GROWTH FOR INSURANCE PRODUCTS SET TO ACCELERATE … (1/2)**

- India’s robust economy is expected to sustain the growth in insurance premiums written.
- Higher personal disposable incomes would result in higher household savings that will be channeled into different financial savings instruments like insurance and pension policies.
- Household savings have reached USD397.78 billion by 2015 from USD89 billion in 2000.
- Financial savings have reached USD202.36 billion by 2015 from USD45 billion in 2000.

Rising income; growing middle class

- Per capita income and rural income are increasing
- The number of middle class households (earning between USD4,413.1 and USD22,065.3 per annum) is estimated to increase more than fourfold to 148 million by 2030 from 32 million in 2010
- Rising per capita income leads to increased spending on medical and healthcare services

Higher incidence of chronic lifestyle diseases

- Lifestyle diseases are set to account for a greater part of the healthcare market
- Lifestyle diseases such as cardiac diseases, cancer and diabetes are treated with the help of biotechnology products, thereby boosting revenues of biotech companies
- The growing GNI per capita, PPP of USD6,020 in FY15 resulted in improved lifestyle due to increased purchasing power of customers for healthcare

Notes: Greater distributional efficiencies and increasing demand (especially from rural areas) due to rising disposable incomes have created new markets for products within the country. F - Forecast

FAVOURABLE POLICY MEASURES AID THE SECTOR

**Tax incentives**
- Insurance products are covered under the exempt, exempt, exempt (EEE) method of taxation. This translates to an effective tax benefit of approximately 30% on select investments (including life insurance premiums) every financial year.
- In 2015, Tax deduction under Health Insurance Scheme has been increased to USD409.43 from USD245.66 and for senior citizens tax deduction has been increased to USD491.32.

**Union Budget 2015–16**
- The Insurance (Amendment) Bill 2015 is expected to empower IRDA to introduce regulations for promoting sustainable growth, providing the flexibility to frame regulations and increase the FDI limit to 49%.
- The government has also extended Rashtriya Swasthya Bima Yojana (RSBY) to cover unorganised sector workers in hazardous mining and associated industries.
- In 2015, under National Insurance Scheme PM Suraksha Bima Yojana has been introduced. Under new scheme up to INR 2 Lakh life insurance cover will be provided with a premium of INR 12 per day.
- As per Union Budget 2016-17, USD840.21 million has been allocated to “Prime Minister Fasal Bima Yojna”.

**Life insurance companies allowed to go public**
- IRDA recently allowed life insurance companies that have completed 10 years of operations to raise capital through Initial Public Offerings (IPOs).
- Companies will be able to raise capital if they have embedded value of twice the paid up equity capital.

**Approval of increase in FDI limit and revival package**
- Increase in FDI limit will help companies raise capital and fund their expansion plans.
- Revival package by government will help companies get faster product clearances, tax incentives and ease in investment norms. FDI limit for insurance company has been raised from 26% to 49 percent, providing safeguard and ownership control to Indian owners.

Notes: RSBY - Rashtriya Swasthya Bima Yojana, FDI - Foreign Direct Investment.
RISING PRIVATE SECTOR INVESTMENT IN INSURANCE

• Investments from the private sector are increasing, as they see a huge opportunity in the growing insurance sector of the country

• Most of the existing players are tying up with banks to expand their distribution network

• Few players like HDFC Life are planning to go public; others are selling stakes to generate funds

• In 2015, Insurance Bill was passed that will raise the stake of foreign investors in the insurance sector to 49%, fueling the participation of private sector investment in the insurance sector in the country

INDIA’S INSURANCE MARKET OFFERS A HOST OF OPPORTUNITIES ACROSS BUSINESS LINES

Opportunities for Indian insurance market

- Crop insurance
- Micro-insurance
- Low-income urban and pension markets
- Motor insurance markets
- Health insurance markets

Source: TechSci Research
LIFE INSURERS: LOW-INCOME URBAN AND PENSION MARKETS … (2/2)

* Increasing life expectancy, favourable savings and greater employment in the private sector will fuel demand for pension plans
* Proposed new pension bill by government will further provide new opportunities to insurers
* There is scope to introduce new-generation pension products such as Variable Annuity and Inflation Indexed Annuity. Although the pace has declined, the number of enrolments in the Jan Suraksha scheme has risen to 132 million. The Jan Suraksha scheme includes a personal accident cover, term insurance, and a pension plan.
* By 2030, India will have around 180 million people in the age bracket of 60+ years
* In 2015, three schemes related to insurance and pension, Pradhan Mantri Suraksha Bima Yojana, Pradhan Mantri Jeevan Jyoti Bima Yojana and Atal Pension Yojana were launched. The number of policies in the Pradhan Mantri Suraksha Bima Yojana, a part of the Jan Suraksha scheme, reached 98 million on November 24, 2016.
* As on October 2015, Indian Retirement system was ranked last in the global pension index which witnessed a fall in value from 43.5 in 2014 to 40.3 in 2015

Notes: PFRDA - Pension Fund Regulatory and Development Authority,
(1) Expected value, at 2009-10 rates, CAGR - Compound Annual Growth Rate
Strong growth in the automotive industry over the next decade will be a key driver of motor insurance.

Proposed IRDA draft envisages a 10–80% rise in premium rates for the erstwhile loss-making third-party motor insurance.

In FY16, number of commercial vehicles and passenger vehicles sold in the country were recorded at 0.8 million and 3.4 million respectively, while the number of 2&3 wheelers sold were 19.76 million.

In FY15, Motor and Health sector constituted 67.70 percent of the non-life insurance market.

Breakup of non-life insurance market in India (FY17(1))

Vehicle production in India (million units)

Notes: E in the axis for the figures above refer to estimates, GDP - Gross Domestic Product, CAGR - Compound Annual Growth Rate, ACMA - Automotive Component Manufacturers Association of India

Source: IRDA, ACMA, SIAM, TechSci Research

(1)– Data upto June 2016

For updated information, please visit www.ibef.org
Only 1.5–2% of total healthcare expenditure in India is currently covered by insurance providers.

From 13.3% of the total non-life insurance premium in FY07, health insurance contributed 27.43% in FY15.

Total health insurance premiums increased from USD733.1 million in FY07 to USD3,069.97 million in FY15, witnessing growth at a CAGR of 19.60%.

In FY17 (Up to June 2016) gross direct premium income underwritten under health insurance is USD1.17 billion.

Absence of a government-funded health insurance makes the market attractive for private players.

IRDA recommended the government to reduce capital requirements for stand-alone health insurance companies from USD21 million to USD10 million.
**NON-LIFE INSURERS: HEALTH INSURANCE MARKETS … (2/2)**

- Introduction of health insurance portability expected to boost the orderly growth of the health insurance sector
- Increasing penetration of health insurance likely to be driven by government-sponsored initiatives such as RSBY and ESIC
- In FY15, population covered under health insurance through government sponsored schemes reached 351 million
- Government-sponsored programmes expected to provide coverage to nearly 380 million people by 2020
- Private insurance coverage is estimated to grow by nearly 15% annually till 2020
- Health insurance coverage to cross 630 million people by 2015
- In July 2016, IRDA issued Health Insurance Regulations, 2016. These regulations replace the Health Insurance Regulations, 2013. As per these new norms, companies will provide better data disclosure, pilot products, coverage in younger years, etc.
- As per the latest data, only 18 per cent of people in urban areas are covered under any kind of health insurance scheme
- Rashtriya Swasthya Bima Yojana (RSBY) is a centrally sponsored scheme to provide health insurance to Below Poverty Line (BPL) families and 11 other defined categories of unorganized workers, namely building and other construction workers, licensed railway porters, street vendors, MGNREGA workers, etc.

The business environment in India’s microinsurance sector supports healthy growth

| Macro level (The enabling environment) | • IRDA drafted microinsurance guidelines in 2010, which contain numerous favourable measures such as  
• Lower threshold limits for agents’ commissions  
• Rural areas must account for 7% of new life insurance policies in the first year of firm’s operation and rise to 20% over the next 10 years |
|----------------------------------------|----------------------------------------------------------------------------------|
| Intermediate level (Support infrastructure) | • In order to reduce microinsurance distribution costs, IRDA proposed microinsurance schemes to supplement existing government insurance schemes  
• The number of regional rural banks and NGOs operating in the rural sector will aid distribution of microinsurance products |
| Micro level (Policy holders) | • The annual income growth rate in rural India is expected to increase to 3.6% over 2010–30 from 2.8% during 1990–2010  
• About 5 million people currently have microinsurance, while the entire market is expected to be in the range of 140–300 million |

In FY15, total new business premium in India was recorded at USD22.6, with USD3.5 million accounted for by the private sector and USD19.1 million by the public sector.
Crop insurance market in India is the largest in the world, covering around 30 million farmers.

To provide crop insurance to farmers, Government has launched various schemes like National Agriculture Insurance Scheme (NAIS), Modified National Agriculture Insurance Scheme (MNAIS) and Weather-based Crop Insurance Scheme (WBCIS).

Total sum insured under crop insurance is USD836.6 million.

Government of India plans to increase the coverage to 50 million during the 12th Five-Year Plan.

Objective for establishing micro insurance

- Fulfilment of corporate social responsibility
- Increase brand recognition to boost market entry – today’s micro clients maybe tomorrow’s high-premium clients
- To target untapped markets and income groups of rural India

Key strategic decisions

- The micro insurance business model must be separated from business model
- Selling micro insurance would require new, alternative distribution mechanisms

The micro insurance business model

New business unit

- A special microinsurance team called the Rural & Social Team is formed

Partnering with NGOs

- Identify and partner with credible NGOs operating in the local community
- NGO suggests good agents for microinsurance policies (micro-agents)

Forming CRIGs

- A group of micro-agents called a Community Rural Insurance Group (CRIG) is formed; it relies on direct marketing of microinsurance policies to local community members

Local operations managed by NGOs

- Local operations like collecting and aggregating the premiums, training micro-agents, and helping to distribute benefits looked after by the NGO; this saves administrative costs for Tata-AIG
