Unexploited natural resources

- Nagaland has around 600 million metric tonnes (MT) of crude oil and more than 20 million tonnes of hydrocarbon reserves, which are unexploited. Moreover, the state has 315 million tonnes of coal reserves and 1,038 million tonnes of limestone reserves.

Hydropower generation potential

- Nagaland's estimated hydropower generation potential is 1,574 MW as of December 2018, while the installed capacity is 170.03 MW for May 2019, which presents huge investment opportunities in the state.

Bamboo and sericulture

- Bamboo is extensively cultivated in Nagaland, with bamboo growing stock covering about 5 per cent of the total stock in the country. Raw silk production in the state achieved 615 MT in 2017-18 and stood at 220 MT in 2018-19 (upto May 2018).

Floriculture and horticulture

- The agro-climatic conditions in Nagaland provide commercial opportunities for floriculture and horticulture. The state has 650 indigenous species of medicinal and aromatic plants. Nagaland has over 1000 flower growers under the Horticulture Department.
- Production of vegetables and fruits in the state was 561.61 thousand metric tonnes and 380.52 thousand metric tonnes, respectively, during 2018-19*.

INTRODUCTION

Source: Maps of India

- Nagaland is located in the Northeast of India. The state is surrounded by Myanmar in the east, Arunachal Pradesh in the north, Assam in the west and Manipur in the south.
- English is the official language and the medium of education. Sixty different dialects of Sino-Tibetan language are spoken in the state.
- Kohima, Dimapur, Mokokchung, Tuensang, Wokha, Mon and Zunheboto are some of the key cities in the state.

Source: Government of Nagaland, Census 2011

- Nagaland has four soil types: Inceptisols (66 per cent), Ultisols (23.8 per cent), Entisols (7.3 per cent) and Alfisols (2.9 per cent). Paddy, maize, sugarcane, potato and tea are grown on a large scale in the state.

Parameters	Nagaland
Capital	Kohima
Geographical area (lakh sq. km)	16,579
Administrative districts (No)	12
Population density (persons per sq. km)	119
Total population (million)	1.97
Male population (million)	1.02
Female population (million)	0.95
Sex ratio (females per 1,000 males)	931
Literacy rate (%)	80.11

Favourable location and abundant resources

- Nagaland's agro-climatic conditions favour agriculture, horticulture and forestry, offering immense potential in these areas.
- The state has considerable resources of natural minerals, petroleum and hydropower.

Institutional support

- The state provides institutional support through various central and state government agencies viz., North East Council, Ministry of Development of North Eastern Region and Nagaland Industrial Development Council.

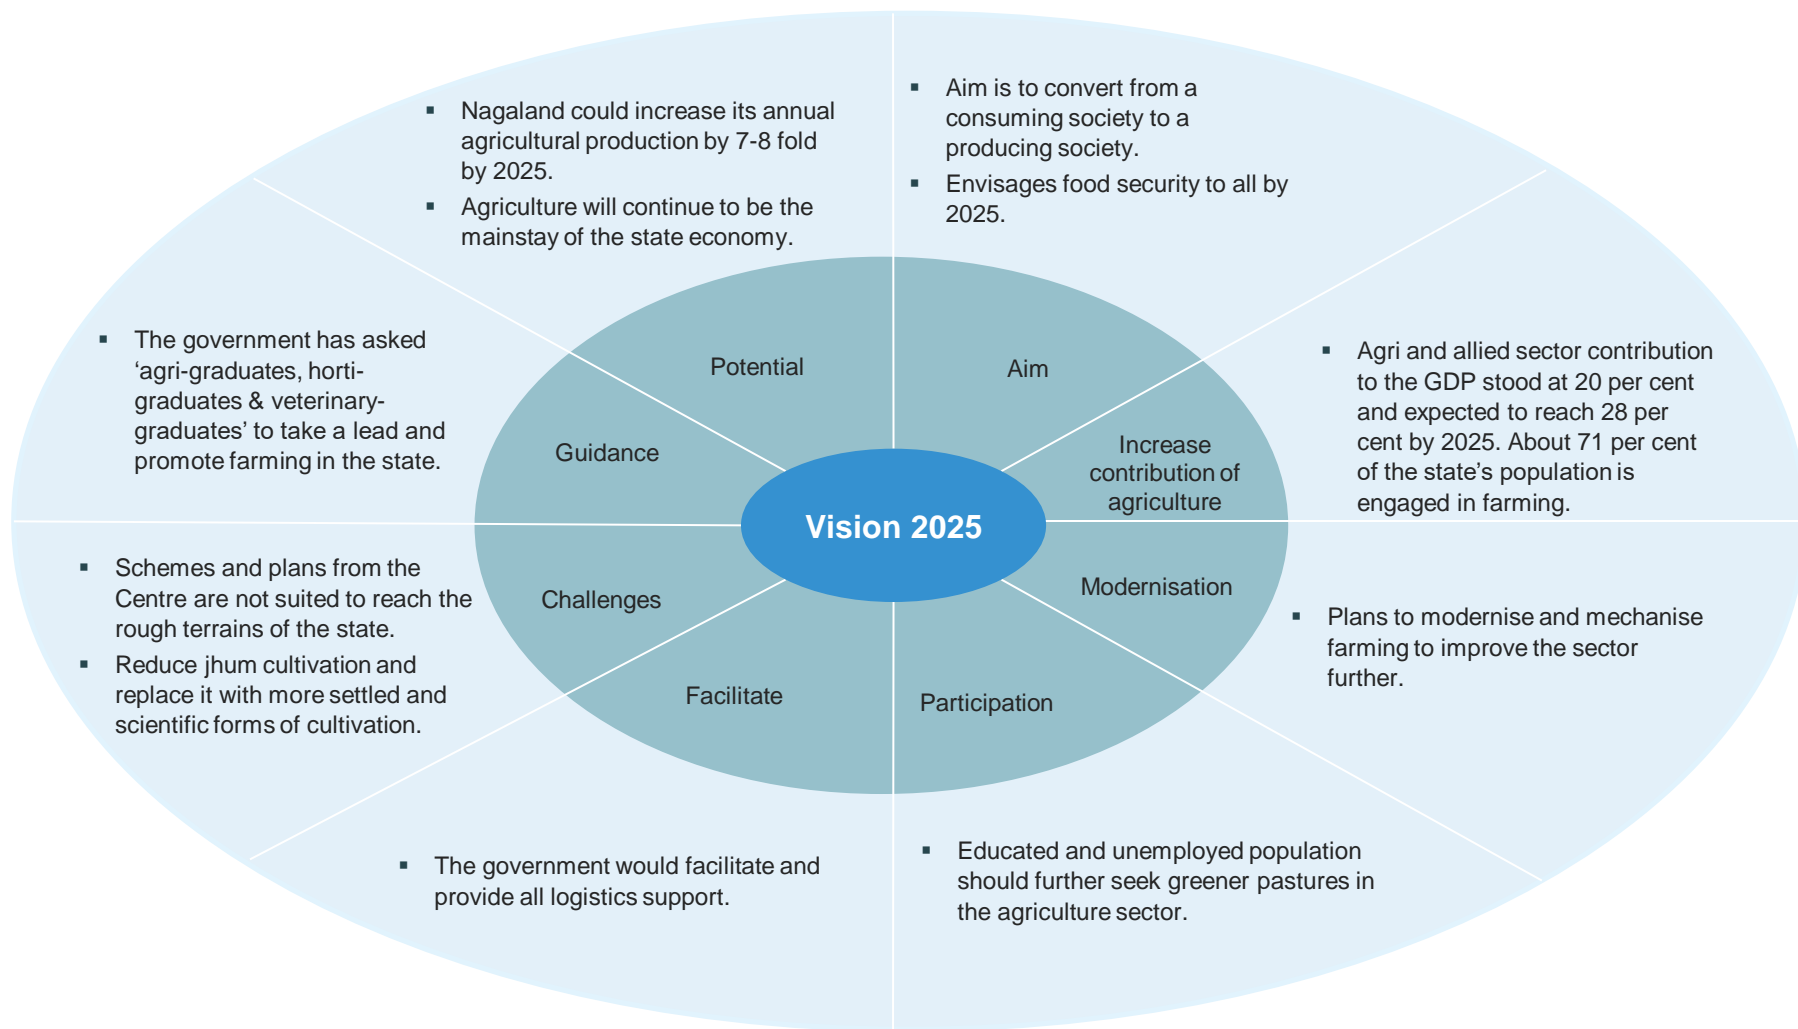

Advantage Nagaland

Availability of skilled labour

- Nagaland has a high literacy rate of 80.11 per cent. A majority of the population in the state speaks English, which is the official language of the state.
- The state strongly focuses on technical and medical education.

Policy and infrastructure

- The state offers excellent policy and fiscal incentives for agro-based and forest-based industries, horticulture, food processing, mining, tourism, and handlooms and handicrafts sectors.
- Transport and communication facilities are good. Industrial centres and special economic zones (SEZs) are being developed to enhance the marketability of products.

ECONOMIC SNAPSHOT – NAGALAND’S EXPORT TRENDS

Export Trend (US\$ million)

Composition of Major Item Exported (2018-19) (as of Feb 2019)

- Total exports from the state stood at US\$ 3.92 million during 2017-18 and US\$ 2.78 million in FY19.
- Major items exported from Nagaland are Human Hair, Products and Iron and steel, Buffalo Meat, Coal, Coke and Briquettes etc. and Industrial Machinery for Dairy etc.
- During 2018-19*, total exports of 'Human Hair and Products Thereto from Nagaland stood at US\$ 1.44 million which was 54.34 per cent of the total exports.

Source: Directorate General of Commercial Intelligence and Statistics

PHYSICAL INFRASTRUCTURE

- As of March 2019, Nagaland had 1,548 km of national highways.
- Agencies maintaining roads in the state include the Public Works Department (PWD) and Sewak (a Border Roads Organisation of the Government of India). Nagaland State Transport provides road transport across Nagaland, covering 112 routes and 21,300 km daily.
- In March 2018, construction of twelve road stretches in the north-eastern state of Nagaland under Special Accelerated Road Development Programme (SARDP-NE) has been approved by Government of Nagaland, which will cost Rs 6,441.34 crore (US\$ 994.96 million). Chakabama - Zunheboto road project cost about Rs 339.57 crore (US\$ 52.45 million) will be constructed in two-lanes length of 25 km stretch.
- As of April 2019, 116 habitations were eligible under Pradhan Mantri Gram Sadak Yojana (PMGSY) , out of which 109 were cleared and further 95 habitations were connected.

Total Length of road in 2018-19

Category	Road Length (In Km)
State Highways	1,129.00
Major District Roads	1,751.25
Other District roads	3,377.95
Village Roads	4,420.50
Urban Roads	459.30
Urban Roads	941.80
Total	12,079.80

Note: @ Funds to some states have been released more than accrual of a state from the unspent balance of previous years of that States

- The railway station at Dimapur connects Nagaland with the rest of the country via Assam. Around 88 km of the Dimapur-Kohima railway project is in the planning stage. The central government envisaged completing this US\$ 141 million project by March 2017.
- In order to speed up the project, the Nagaland government has constituted a committee for proper and effective monitoring of the rail project.
- In May 2018, Indian Railways plans to construct several rail projects costing almost Rs 90,000 crore (US\$ 13.96 billion) to improve connectivity in the North East by 2020. These projects will help to connect Nagaland with rest of neighbouring states.
- Constituting the committee would allow close coordination between the state government and the Northeast Frontier Railway for execution of the Dhansiri (Assam) to Zubza-Thizama (Nagaland) railway line project.
- Rs 500 crore (US\$ 69.30 million) has been allocated to Nagaland's capital Kohima with Dimapur through BG line in the recent Railway Budget 2019-20.

Dimapur passenger traffic (nos.) (up to Feb 2019)

Dimapur aircraft movement (nos.) (up to Feb 2019)

- Nagaland has one operational airport located at Dimapur. It provides commercial services to Kolkata, West Bengal and Dibrugarh, Assam.
- A second airport is being planned for Kohima.
- The passenger traffic at Dimapur airport was 178,662 from April 2018-February 2019.
- Aircraft movement from Dimapur airport was 2,090 from April 2018-February 2019.

Source: Airport Authority of India

PHYSICAL INFRASTRUCTURE – POWER

- As of May 2019, Nagaland had total installed power generation capacity of 170.03 MW, of which 138.36 MW was under central sector, 30.67 MW was under state utilities and private sector accounted for 1.00 MW. Of the total installed power generation capacity, 81.03 MW was contributed by thermal, 57.33 MW by hydro and 31.67 MW by renewable energy.
- IPDS will be launched aiming at monitoring and controlling commercial and technical losses in the distribution sector.
- DDUGJY will strengthen the distribution at the rural level in order to electrify all villages and provide them with continuous electricity. This scheme aims at providing free of cost service connections to BPL and ST households.
- Under the DDUGJY program in FY19 electrification of all un-electrified villages and households have achieved.
- 78 villages in 10 districts were covered under this project. The project also involved infrastructural upgradation.
- Power generation in the state for 2018-19[^] reached 210.63 GWH.

Note: [^] as of December 2018, GWH - Gigawatt hours

Source: Central Electricity Authority, Ministry of Power, Nagaland Post

- According to Telecom Regulatory Authority of India (TRAI), Northeast had a total of 12.06 million wireless subscribers and 103,945 wireline subscribers as of Feb 2019.
- By the end of February 2019, 1.31 million subscribers had submitted request for mobile number portability in the Northeast. Moreover, total tele-density in the Northeast region was recorded to be 84.59 per cent as of February 2019.

Telecom Infrastructure (As of Feb 2019)

Wireless subscribers ⁽¹⁾	12,062,364
Wire-line subscribers ⁽¹⁾	103,945
Internet subscribers ⁽¹⁾ (As of December 2018)	6,360,000

INDUSTRIAL INFRASTRUCTURE

- Nagaland Industrial Development Corporation (NIDC) is responsible for the development of industrial infrastructure in the state.
- Promoted by NIDC, the Export Promotion Industrial Park (EPIP) at Dimapur has received formal approval as a special economic zone (SEZ) for the agro and food processing sectors.
- A proposed multi-product SEZ spread across 400 hectares in Dimapur has received formal approval.
- As of January 2019, the state has two formally approved SEZs.
- An industrial growth centre (IGC) has been developed in Ganeshnagar near Dimapur. It has supporting infrastructure such as water supply systems, banks, post offices, police stations, etc.

Industrial infrastructure

- Border trading centre with Myanmar.
- Exhibition facilities for national and international fairs on handloom products.
- Infrastructural development schemes for districts in the 'No Industry' category.
- The Government of India had approved allocation of about Rs 3,000 crores (US\$ 463.39 million) up to March 2020 in North East Industrial Development Scheme (NEIDS) 2017. Before March 2020, the government will provide necessary allocations for its remaining period after assessment.
- North East Industrial Development Scheme (NEIDS) will also provide special incentives for new industrial units in Northeast.

KEY SECTORS

- ❖ Agriculture
- ❖ Tourism
- ❖ Sericulture and Apiculture

- Nagaland has a suitable climate for agricultural and horticultural produce. It supports multiple crops viz., rice, maize, millet, gram, mustard, bean, sugarcane, rubber, tea, banana, pineapple, orange, jackfruit, pear, plum, passion fruit, litchi, mango, lemon, sweet lime, potato, sweet potato, tapioca, tomato, pea, chilly, ginger, garlic, cardamom, etc.
- Jhum cultivation (or shifting cultivation) is widely practised in Nagaland; however, crop yields are low under such cultivation. There is potential for increasing capacity utilisation by adopting modern techniques.
- Agriculture accounts for a significant share in Nagaland's economy. It contributed 27.47 per cent to the state's total GSDP during 2018-19**. Around 60 per cent of the population is engaged in the agriculture sector.
- The area under cultivation increased from 316.20 ha in 2014-15 to 339.70 ha in 2018-19 and the productivity of food grains increased from 2,139 kg per ha in 2016-17 to 2,234 kg per ha during 2018-19.

Agricultural production (‘000 tonnes)

Crop	2018-19*
Fruits	380.52
Vegetables	561.61
Spices	67.26
Plantation crops	10.58

Agricultural area (‘000 HA)

Crop	2018-19*
Fruits	39.50
Vegetables	46.21
Spices	9.95
Plantation crops	2.29

KEY SECTOR – AGRICULTURE...(2/2)

- As of 2018, Nagaland has 46 species of bamboo.
- Nagaland promotes bamboo processing as an enterprise, covering various applications such as food-based, medicinal usage, handicraft, art, tiles and flooring. Nagaland Bamboo Development Agency (NBDA) is the nodal office that coordinates with other offices for all bamboo-related research, development and business applications.
- NBDA has set up the Nagaland Bamboo Resource Centre (NBRC) at Dimapur as a centre of excellence with the following objectives:
 - Function as an information repository and facilitate technology and information transfer to enterprises.
 - Create awareness on the potential of bamboo.
 - Support bamboo farmers and entrepreneurs in building capacity.
 - In-house pilot bamboo processing units for training entrepreneurs.

Funds allocated under National Agroforestry & Bamboo Mission (in US\$ million)

*Note: * Funds were released only for maintenance of plantation raised in previous years*

**Amount sanctioned for the projects of tourism development
(in US\$ million)**

Total tourist arrivals in Nagaland

- Pleasant climate, green hills, criss-crossing rivers, interspersed lakes, vibrant culture, colourful handicrafts and weavings, and numerous festivals make Nagaland a tourist's paradise. Creation of tourist complexes, eco-tourism, adventure tourism, ethnic culture tourism, health farms, hotels, convention centres, tourist travel services, etc. are various avenues for investment in the sector.
- The preferred tourist destinations in the state are Kohima, Dimapur, Mokokchung, Longleng, Wokha, Kiphire, Zunheboto, Phek, Peren, Mon & Tuensang.
- Ministry of Tourism, Government of India, has included 24 villages in Nagaland under the rural tourism scheme in order to promote traditional rural art, craft, textile and culture.
- In 2018, domestic tourist arrivals in the state were 101,588 and Foreign tourist arrivals had crossed over 5,010.

Note: As per latest data available, P - Provisional

Source: Ministry of Tourism, Government of India, Economic Survey 2018-19

KEY SECTOR – SERICULTURE AND APICULTURE

- The Department of Sericulture of Nagaland is mandated to popularise sericulture in rural areas, generate employment opportunities, introduce and impart latest technologies on sericulture, support marketing of sericulture products and promote silk exports from Nagaland.
- To facilitate operations at the district-level, the department has set up district sericulture offices in all 11 districts of the state. Agro-climatic conditions in the state are conducive for development of sericulture. Mulberry, muga, eri, oak-tussar and silk are widely cultivated in Nagaland.
- In 2017-18, production of raw silk in the state of Nagaland stood at around 615 MT and 570 MT in 2018-19[^].
- Nagaland has immense potential to produce organic honey and pollen due to its rich biodiversity, traditional knowledge, practice of beekeeping and numerous honeybee species.

Production of raw silk (metric tonnes) (till December 2018)

- The state is estimated to have the potential to produce 15,000 MT of honey and 100 MT of wax, which together could generate around US\$ 100 million annually. The production of honey during 2018-19* was recorded to be 590 MT.

*Note: (P) Provisional, * 1st Advance Estimate*
