Strong floriculture sector

- Sikkim is home to around 5,000 species of flowering plants, 515 rare orchids, 60 primula species and 36 rhododendron species. This makes it one of the leading states in the Northeast region in terms of production and supply of cut flowers to mainland consumer markets.

Strong potential of medicinal plants industry

- Of the 6,000 medicinal plants in India, over 424 plants (including the famous *Artemisia vulgaris* that is used as an antiseptic) are grown in Sikkim. Moreover, it is all set to be recognised and certified by the Government of India under National Medicinal Plant Board (NMPB) proposed under the 12th Five Year Plan.

Second-largest producer of cardamom

- The state is considered as a huge cardamom epicentre of the world, producing around 80 per cent of large cardamom in the country. Additionally, India is the world leader of the crop, producing over 50 per cent of the global yield.

Presence of world's third highest peak

- Sikkim has mighty snow-capped peaks including the Kanchenjunga, the world's third highest peak, which attracts a large number of tourists from across the globe.

Agrarian economy

- The state's economy is largely agrarian, based on the terraced farming of rice and the cultivation of crops such as maize, millet, wheat, barley, oranges, tea and cardamom.
- Sikkim produces more cardamom than any other Indian state and is home to the largest cultivated area of cardamom

Source: Ministry of Agriculture, Government of India

INTRODUCTION

High economic growth and stable political environment

- Sikkim's GSDP grew at a Compound Annual Growth Rate (CAGR) of 12.30 per cent between 2011-12 and 2018-19.
- Large production of cardamom and flowers has opened up immense possibilities for the state economy.
- Rail and air connectivity as well as optical-fibre networks are being developed in the state.

Conducive agro-climatic conditions

- Sikkim has favourable agro-climatic conditions, which support agriculture, horticulture and forestry; there is potential for development in related areas
- As per the state budget 2016-17, Sikkim got certified as the first fully organic state in India by the Central Ministry of Agriculture and Farmers' Welfare as well as other recognized agencies of the country.

Advantage Sikkim

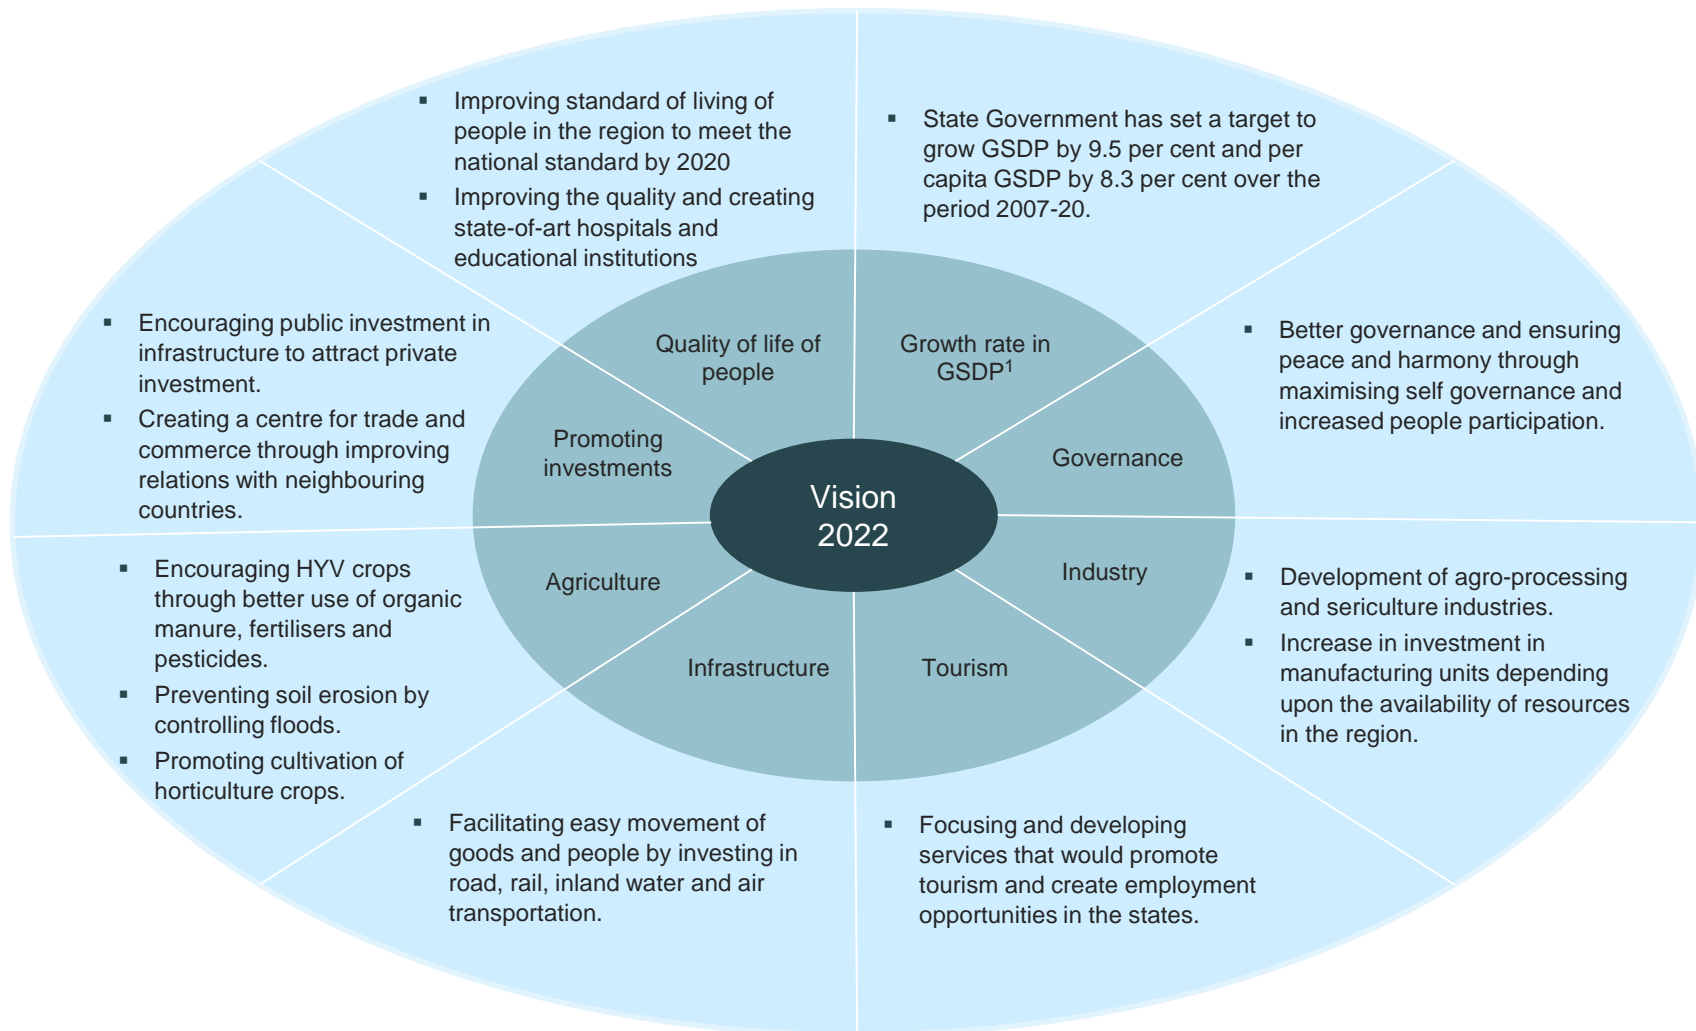

Rich labour pool

- Sikkim has a high literacy rate of around 81.42 per cent.
- The state has a skilled and educated labour force.
- With the establishment of Sikkim Manipal University and the Sikkim University, the quality and quantity of employable graduates in the state has steadily improved.
- Skilled labour contributes in the modernization of the state through the development of services sector.

Policy and institutional support

- The state follows the North East Industrial Investment Promotion Policy, 2007, which provides several incentives and concessions for investment.
- Institutional support is provided through various central and state Government agencies viz., North East Council, Ministry of Development of North Eastern Region and Commerce and Industries Department.

Source: Central Electricity Authority, GSDP: Gross State Domestic Product;

Source: NER Vision 2020, HYV: High Yielding Variety, ¹GSDP is at fixed costs at 2006-07 prices

- Sikkim is surrounded by vast stretches of Tibetan Plateaus in the north, the Chumbi Valley of Tibet and the Kingdom of Bhutan in the east, the Kingdom of Nepal in the west and Darjeeling district of West Bengal in the south
- Sikkim has 4 districts – East Sikkim, West Sikkim, North Sikkim and South Sikkim. The district capitals are Gangtok, Gyalshing, Mangan and Namchi respectively

- Nepali, Bhutia, Lepcha, Limboo, Magar, Rai, Gurung, Sherpa, Tamang, Newari and Sunuwar (Mukhia) are the commonly spoken languages. Hindi and English are also widely spoken. Sikkim has 10 mountain peaks, 84 glaciers, 315 glacial lakes (including the Tsomgo, Gurudongmar and Khecheopalri), 5 hot springs and 8 mountain passes – making it an ideal tourist location. The Teesta and the Rängeet are the 2 major rivers with nearly hundred

- As per the Budget 2018-19, Drug Testing Laboratory is being constructed at Chuwatar at a cost of Rs 880 Lakh (US\$ 1.37 million).
- As per the new Budget, Tuberculosis hospitals at Gyalshing and Mangan and Blood Bank at Mangan will be completed in FY2018-19.
- Construction of new district hospitals at Mangan at a cost of Rs 20 crore (US\$ 3.10 million) has been initiated.
- Sikkim Government is also setting up Sowa Rigpa at National Institute of Tibetology, Deorali at a cost of Rs 10.50 crore (US\$ 1.63 million).
- Government of Sikkim would provide free health care services with various improvements in infrastructure and improvised provision of complete health services. Moreover, Government is coming up with 1,000 bedded multi-specialty hospital.

Source: Central Bureau of Health Intelligence, Government of India, State Budget 2016-17

INDUSTRIAL INFRASTRUCTURE

- Brewing, distilling, tanning and watchmaking are the main industries located in the southern regions of Sikkim.
- A small mining industry exists in the state, extracting minerals such as copper, dolomite, talc, graphite, quartzite, coal, zinc and lead.
- Sikkim has identified Rangpo-Gangtok, Melli-Jorethang, Jorethang-Rishi and Ranipool-Gangtok as industrial corridors with provision for giving land to investors on a lease basis.
- Sikkim is a leading north-eastern state in hydroelectric power development with 28 different projects identified under PPP mode.
- The units that are engaged in the manufacturing sector are mainly dealing with pharmaceuticals, chemicals, liquors, foam mattresses, food products, iron rods, etc.

Prime Minister's Employment Generation Programme (PMEGP) Schemes, fund allocation and utilisation in Sikkim

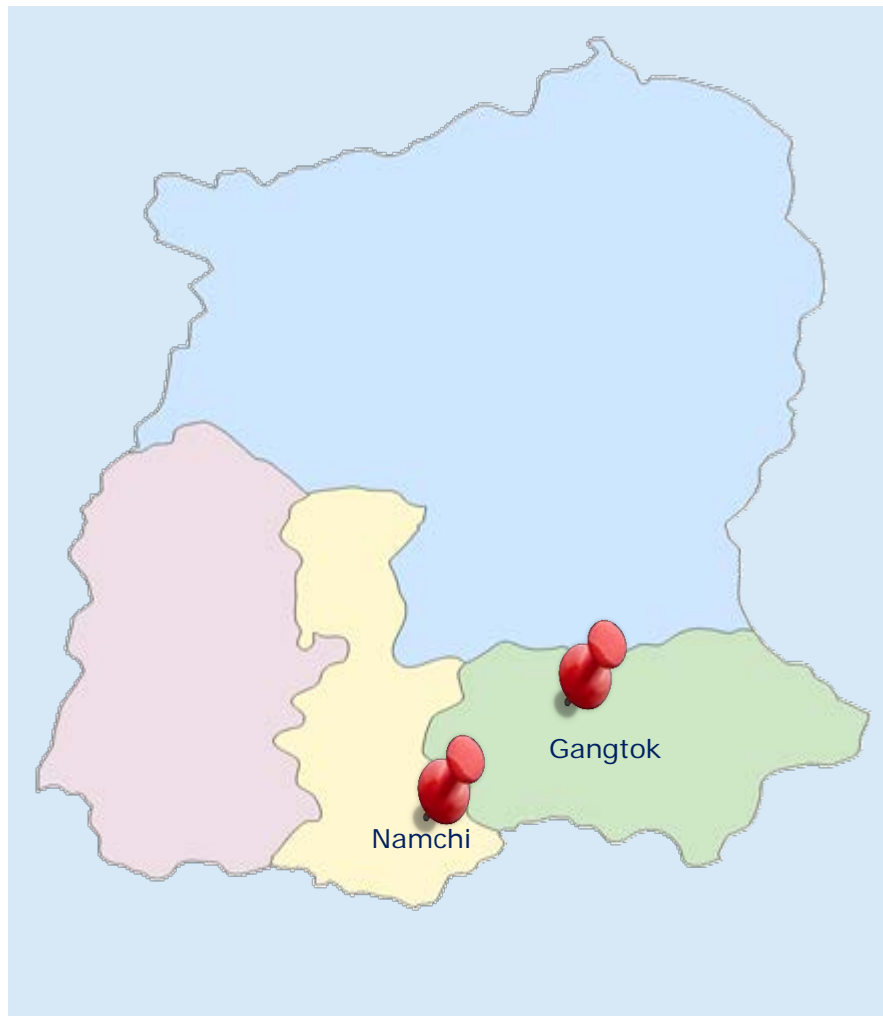

Year	Allocated (US\$ million)	Utilized (US\$ million)	Employment generated
2014-15	0.84	0.05	54
2015-16	0.35	0.29	397
2016-17	0.13	0.06	201
2017-18	0.31	0.04	168

- Sikkim has identified agro-based industries, horticulture and floriculture, minor forest-based industries, animal husbandry and dairy products, tourism-related industries, IT including knowledge-based industries, precision oriented high value-low volume products, hydro-power, tea, education and hospitality as thrust sectors.
- The Information Technology (IT) Department, Government of Sikkim is in the process of setting up a state-of-the-art IT Park and National Institute of Electronics and Information Technology (NIELIT) at Pakyong.

Smart cities in Sikkim

Cities	Population	Literacy Rate
Namchi	12,190	88.10%
Gangtok	100,286	89.33%

- The central Government announced plans to develop Namchi and Gangtok as two of the 100 smart cities in India.
- From the state of Sikkim, Gangtok has been included under AMRUT (Atal Mission for Rejuvenation and Urban Transformation).

KEY SECTORS

- ❖ Agro and Food Processing and Horticulture
- ❖ Tourism
- ❖ Floriculture and Sericulture
- ❖ Pharmaceuticals

KEY SECTORS – AGRO and FOOD PROCESSING AND HORTICULTURE... (1/3)

Production of vegetables (in '000 MT)

Production of fruits (in '000 MT)

- Agriculture is vital to the progress of Sikkim as more than 64 per cent of the population depends on it for their livelihoods. The Sikkim AGRISNET is an internet-based agriculture information centre to promote scientific agricultural methods and convert research into practice in the agricultural sector.
- Sikkim has a suitable climate for agricultural and horticultural products. It supports multiple crops; viz., rice, wheat, maize, millet, barley, urad, pea, soya bean, mustard and large cardamom.
- The surveyed arable land in Sikkim is 109,000 ha, of which only 9.5 per cent is used; this provides a vast untapped potential for development.
- The state Government is also laying emphasis on improving organic farming in the state. The state was certified as the first fully organic state in India, by the Central Ministry of Agriculture and Farmers' Welfare as well as other recognized agencies of the country. In August 2019, Sikkim was declared as world's first 100 per cent organic state by UN Food and Agriculture (FAO).

Note: MT: Metric Tonnes, P – Provisional

Source: Indian Horticulture Database 2014-National Horticulture Board, Department of Agriculture Cooperation and Farmers Welfare

KEY SECTORS – AGRO and FOOD PROCESSING AND HORTICULTURE... (2/3)

- The primary sector contributed around 16.06 per cent to Sikkim's GSDP in 2017-18. Agriculture provides livelihood to more than 64 per cent of the people of Sikkim, either directly or indirectly. Sikkim is the top producer of large cardamom, contributing over 80 per cent to India's total production.
- The area under production for fruits and vegetables during 2018-19* was 19.54 hectares and 38.80 hectares respectively
- The state Government is targeting to launch new agricultural schemes for making farming more profitable and allowing the youth to determine agriculture as a budding source of livelihood. Implementation of such schemes is expected to result in increase in the area utilization for the cultivation and production of various crops. The state Government is also laying emphasis on improving organic farming in the state.
- As per budget 2018-19, allocation of Rs 484.52 crore (US\$ 67.42 million) is made for the development of the agriculture and allied services sector. Sikkim will become self sufficient in terms of food grains production within next 5 years.

Crop	Production – 2018-19* ('000 tones)
Fruits	55.45
Vegetables	231.39
Flowers	16.50
Spices	106.27

Sector	Allocation (2018-19) (US\$ million)
Crop husbandry	24.30
Soil and water conservation	2.40
Animal husbandry	9.22
Dairy development	0.12
Fisheries	0.93
Forestry and wild life	19.28
Plantations	1.36
Food, storage and warehousing	2.94
Cooperation	2.62
Other agricultural programmes	4.25

- Budget 2018-19 states that total vegetables requirement to feed the entire population of the state (Including tourist and floating population) is 95,000 metric tonnes per annum

*Note: Exchange rate as per slide number 46, * - As per 3rd advanced estimate*

Source: ENVIS Centre: Sikkim Annual Report; Sikkim Agrisnet; Spices Board, State Budget 2018-19, Department of Agriculture Cooperation and farmers Welfare

KEY SECTORS – AGRO and FOOD PROCESSING AND HORTICULTURE... (3/3)

Allocation to Krishi Vigyan Kendras (in US\$ '000)

Allocation under PKVY scheme (in US\$ '000)

- In 2003, the state Government took the decision to become a fully organic state through a declaration in the legislative assembly. In January 2016, Sikkim became the first fully organic state in India. Around 75,000 hectares of agricultural land in the state was gradually converted to certified organic land by implementing practices and principles as per guidelines laid down in National Programme for Organic Production.
- The Indian Council of Agricultural Research (ICAR) has established three Krishi Vigyan Kendras (KVKs) in Sikkim to impart training to farmers in various aspects of agriculture including organic farming
- Paramparagat Krishi Vikas Yojana (PKVY) is a sub-scheme under National Mission of Sustainable Agriculture (NMSA) through which assistance is provided for Organic Farming clusters. The state has around 150 clusters and the Government plans to develop 200 more clusters in 2017-18.
- State Irrigation Plan (SIP) for the period of 5 years from 2017-18 to 2021-22 has been approved to surface minor irrigation and Repair, Restoration and Renovation (RRR) of existing water bodies to support Sikkim Organic Mission.

Source: Ministry of Agriculture and Family Welfare.

KEY SECTORS – TOURISM... (1/2)

Foreign tourists arrivals in Sikkim (in '000)

Domestic tourists arrival in Sikkim (in '000)

- An extraordinary increase in the number of tourists in the state has been witnessed over the past few years owing to the efforts that the state Government is making for promoting tourism in the state.
- Sikkim is setting up a fossil park in Mamley (south Sikkim), where rare one billion-year-old Stromatolite fossils occur. GSI plans to set up a geological museum in Sikkim, displaying fossils, rock samples, etc., from various parts of India. This would attract palaeontology enthusiasts across the world.
- Tourist arrival (domestic and foreign tourist) in the state has increased from 99,000 in 1994 to more than 1.4 million in 2017.
- The newly constructed Pakyong airport is expected to provide a significant boost to tourism in the state.
- On January 30, 2019, Union Minister for Tourism inaugurated the first project under the Swadesh Darshan Project at the Zero Point, Gangtok, Sikkim. The project was developed in Rs 98.05 crore (US\$ 14.02 million).

Source: Ministry of Tourism- Government of India, Sikkim Tourism, Government of Sikkim

- Tourism in Sikkim has emerged as the new profession of the Sikkimese people with its vast natural potential. Promotion of village tourism, homestay, cultural tourism, trekking tourism, ecotourism, wellness tourism, flori-tourism and adventure tourism has given fillip to the tourism trade in the state where a large of number of people are engaged under different employment opportunities.
- Sikkim has been featured and ranked 17th in the New York Times “52 best places to go in 2017”.
- The Government is aiming at developing a number of tourist infrastructures in the state so as to provide the tourists with village tourism, nature tourism, culture tourism, etc.
- Sikkim has the perfect blend of natural wealth and topography, which ranges from tropical to temperate to alpine. The state is richly endowed with thick forests, flora and fauna, lakes, glaciers and mountain peaks, which makes it a tourist paradise.
- Creation of tourist complexes, ecotourism, adventure tourism, ethnic-culture tourism, health farms, hotels, convention centres, tourist travel services, etc., are various avenues for investment in the tourism sector.
- Cho-Lhamu lake situated in Sikkim is the highest lake in the country and sixth highest in the world. It is expected that recognition of this lake will boost tourism in the state.
- During 2018-19, an allocation of Rs 96.99 crore (US\$ 15.05 million) is made for the tourism and civil aviation departments.
- Ministry of Tourism, Government of India, awarded the capital city of Sikkim, Gangtok, with the title of 'Cleanest Tourist Destination' in the country.
- In September 2019, under first PPP initiative between the Government and the tourism sector, Temi Tea Estate was inaugurated as Eco Adventure Resort.

KEY SECTORS – FLORICULTURE and SERICULTURE...

(1/2)

- Sikkim's geographical and environmental conditions are quite conducive for development of floriculture at a higher altitude. The state is also considered to be the Kingdom of flowers and is an innovator in cultivating Gladiolus.
- Sikkim is the natural home to more than 600 different types of orchids, over 100 primulas and rhododendrons. A number of cut flowers and bulbs are supplied by the farmers to areas in Delhi, Kolkata, Kalimpong, Uttaranchal and Bihar.
- The existing industry is at a nascent stage and has the potential to be developed and promoted towards an export-oriented business. The Sikkim Government has announced a technical collaboration with floriculturists from the Netherlands and Thailand to develop the state's potential in floriculture and market cut flowers from the state globally.
- Sikkim's most important commercial flowers are Cymbidium Orchids, Gladiolus, Carnation, Gerbera, Asiatic, Oriental Lilies and Anthurium, among others, that can be grown for domestic and export markets.
- During 2018-19[^], production of cut flowers and loose flowers in the state is expected to reach 0.09 thousand metric tonnes and 16.50 thousand metric tonnes, respectively.
- During the year 2017-18 total funds allocated under National Horticulture Mission For North Eastern Himalayan States for the promotion of horticulture were Rs 35,330 crore (US\$ 5.45 billion) of which Sikkim has been allocated Rs 3,050 crore (US\$ 470.86 million).

Note: ^ - As per 3rd Advanced estimate

KEY SECTORS – FLORICULTURE and SERICULTURE...

(2/2)

- Mulberry, muga, eri, oak-tussar and silk are cultivated in Sikkim.
- The Sericulture Directorate is responsible for development of sericulture in Sikkim. The Directorate is maintaining three sericulture farms, one each in east, south and west district.
- Forest Department has two sericulture farms, one at Rorathang (east Sikkim) and the other at Mamring and Namthang (south district).
- The sericulture potentiality of Sikkim state has been explored jointly by the State Department and Central Silk Board, through launching a flagship programme titled Catalytic Development Programme.
- Over the years with consorted efforts from the both ends (state and central governments), considerable success have been achieved by the state sericulture industry in generating employment.

Raw silk production in Sikkim (million tonnes)

Year	Production
2013-14	0.20
2014-15	8
2015-16	6
2016-17	9
2017-18	0.001
2018-19	0.4
2019-20 (till December 2019)	1

KEY SECTORS – PHARMACEUTICALS... (1/2)

- Pharmaceutical is an emerging industry in Sikkim due to tax incentives offered by the state Government as well as low manufacturing and labour costs. Sikkim is home to 14 major pharma companies, which have significant investments in the state. These include Cipla, Sun Pharma, Zydus Cadila, Alembic, IPCA, Alkem Lab, Intas Pharma, Torrent Pharma and Unichem.
- The North-East Industrial Development Scheme, 2017 is highly beneficial for pharmaceutical investments in Sikkim. Some of the policy incentives provided under the scheme are:
 - New industrial units are provided Central Capital Investment Incentive for Access to Credit (CCIIAC) at 30 per cent of investment in plant and machinery with an upper limit of Rs 5 crore (US\$ 0.75 million).
 - Industrial units set up under the scheme are allowed to claim reimbursement of central share of income tax for the first five years of operations
 - New industrial units can claim reimbursement of Goods and Services Tax (GST) paid on finished products manufactured in the state up to the extent of Central GST and Integrated GST for a period of five years from date of commencement of production.

**Export of drug formulations, biologicals
(US\$ '000)**

- The exports stood at US\$ 1.59 million during 2018-19.
