Executive summary

- India is the world’s second largest producer of textiles and garments. It is also the fifth-largest exporter of textiles spanning apparel, home and technical products.
- Rising per capita income, favourable demographics and a shift in preference to branded products will boost demand.
- The domestic textile and apparel market is estimated at US$ 106 billion in FY20 and has increased at a CAGR of 10% since FY06.
- Demand is expected to rise at a 12% CAGR to reach US$ 220 billion by 2025-26.
- The textile industry has around 45 million of workers employed in textiles sector, including 3.5 million handloom workers all over the country.
- Favourable trade policies and superior quality to drive textile exports.
- India’s textile and apparel export stood at US$ 37.00 billion in FY19 and is expected to increase to US$ 70.00 billion by FY26 from US$ 36.00 billion in FY20.
- Cloth production in FY19 stood at 70.04 billion square meters and 63.34 billion square meters in FY20 (until January 2020).
- India is working on major initiatives, including setting up five integrated mega textiles parks, a world-class testing lab and starting a focussed product scheme, to position the country as a global hub in the man-made fibre (MMF) and technical textiles segments.
- In January 2021, the Indian Texpreneurs’ Federation (ITF) suggested a six-pronged strategy to achieve double-digit growth in the textiles and apparel sector. ITF published the strategy under the theme ‘2021-A year of progress for Indian Textile & Apparel Sector’.

Advantage India
Advantage India

1 Competitive Advantage

► Abundant availability of raw materials such as cotton, wool, silk and jute.
► India enjoys a comparative advantage in terms of skilled manpower and in cost of production relative to major textile producers.

2 Policy Support

► 100% FDI (automatic route) is allowed in the Indian textile sector.
► Under Union Budget 2020-21, a National Technical Textiles Mission is proposed for a period from 2020-21 to 2023-24 at an estimated outlay of Rs. 1,480 crore (US$ 211.76 million).
► Production-linked Incentive (PLI) Scheme worth Rs. 10,683 crore (US$ 1.44 billion) for manmade fibre and technical textiles over a five-year period.
► The upcoming textile policy is likely to focus on setting up manufacturing hubs for textile machineries with the help of FDIs.

3 Increasing Investments

► In order to attract private equity (PE) and employee more people, Government introduced various scheme such as Scheme for Integrated Textile Parks (SITP) and Technology Upgradation Fund Scheme (TUFS).
► Industrial Entrepreneur Memorandum (IEMS) filed in textiles industry stood at 15 of worth Rs. 1,241 crore (US$ 176.05 million) in January 2020.

4 Robust Demand

► Increased penetration of organised retail, favourable demographics and rising income level will drive demand for textiles.
► Growth in building and construction will continue to drive demand for non-clothing textiles.

Market Overview
Evolution of the Indian textile sector

**Pre 1990s**
- The first cotton textile mill of Mumbai was established in 1854
- The first cotton mill of Ahmedabad was found in 1861; it emerged as a rival centre to Mumbai

**1901-2000**
- Number of mills increased from 178 in 1901 to 417 in 1945
- Out of 423 textile mills of the undivided India, India received 409 after partition and the remaining 14 went to Pakistan
- In 1999, TUFS was set up to provide easy access to capital for technological upgradation
- TMC was launched to address issues related to low productivity and infrastructure
- In 2000, NTP was announced for the overall development of the textile and apparel industry

**2000-2015**
- SITP was implemented to facilitate setting up of textile units with appropriate support infrastructure
- After MFA cotton prices are aligned with global prices.
- Technical textile industry will be a new growth avenue
- Free trade agreement with ASEAN countries and proposed agreement with EU under discussion
- Restructured TUFS was launched attracting a subsidy cap of US$ 420.65 Million

**2016 onwards**
- Make in India campaign was launched to attract manufacturers and FDI
- Technology Mission for Technical Textile has been continued
- Under Union Budget 2020-21, Government of India allocated around Rs. 3,515 crore (US$ 502.93 million) to the Ministry of Textiles
Key facts

- The fundamental strength of the textile industry in India is its strong production base of a wide range of fibre/yarns from natural fibres like cotton, jute, silk, and wool to synthetic/man-made fibres like polyester, viscose, nylon, and acrylic.
- India’s textiles industry contributed 7% to the industry output (by value) in 2018-19.
- The Indian textiles and apparel industry contributed 2% to the GDP, 12% to export earnings and held 5% of the global trade in textiles and apparel in 2018-19.

Key segments of the textile industry

- **Process**
  - Raw material
  - Ginning
  - Spinning
  - Weaving/knitting
  - Processing
  - Garment/apparel production

- **Output**
  - Cotton, jute, silk, wool
  - Fibre
  - Yarn
  - Fabric
  - Processed fabric
  - Final garment/apparel

**Yarn and fibre segment**
- Woollen textiles
- Silk textiles
- Jute textiles
- Technical textiles

**Source:** Textile Ministry, Make in India
The sector has been posting strong growth over the years

- The size of India’s textile market is expected to touch US$ 223 billion by 2021, growing at a CAGR of 10.23% over 2016.
- Indian apparel market is expected to reach US$ 85 billion by 2021.
- The new textile policy aims to achieve US$ 300 billion worth in textile export by 2024-25 and create an additional 35 million jobs. By 2022, the Indian textile sector will require additional 17 million workforce.

Note: F - Forecasted,
Source: Make in India, News articles, Ministry of Textiles
India is the world’s largest producer of cotton. Production grew from 30.0 million bales in FY16 to 35.4 million bales in FY20*.

Cotton production is expected to reach 36.0 million bales and consumption is expected to reach 114 million bales in FY21—13% growth over the previous year.

Cotton and fibres are the two major segments in this category. Production of man-made fibre has also been on an upward trend.

In FY19, the production of fibre in India stood at 1.44 million tonnes, which reached 1.603 million tonnes in FY20 (until January 2020).

In CY2020, Cotton Corporation of India made a record procurement of ~ 151 lakh bales under MSP operations, which is ~ 290% higher than 38.43 lakh bales procured during the corresponding period last year.

Note: E - Estimate, P - Provisional, ^-till January 2020, *- According top 4th Advanced Estimates
Source: The Cotton Corporation of India Ltd, BusinessLine, Department of Agriculture Cooperation & Farmers Welfare
Cotton is the major segment in yarn and fabric

- Production of yarn grew to 5,890 million kgs in FY19 from 5,665 million kgs in FY16.
- Cotton yarn, a major segment in FY20^, accounted for more than 54% share in yarn production.

**Note:** P - Provisional, ^-Until January 2020

**Source:** Ministry of Textiles
Export have posted strong growth over the years

- Export have been a core feature of India’s textile and apparel sector, a fact corroborated by trade figures.

- The Goods and Services Tax (GST) is expected to make imported garments cheaper by 5-6% as the GST regime will levy 5% tax for both domestic textile manufacturers and importers.

- Exports of readymade garments (of all textiles) was worth US$ 1.19 billion as of December 2020.

Note: P - Provisional, *-until November 2019, RMG – Ready-made Garments
Source: Ministry of Textiles
India’s home textile industry is expected to expand at a CAGR of 8.3% during 2014-21 and reach US$ 8.2 billion in 2021 from US$ 4.7 billion in 2014.

India accounts for 7% of the global home textiles trade. Superior quality makes companies in India a leader in export - almost two-third of India’s export of textiles is to US and UK.

Indian products have gained a significant market share in global home textiles in the past few years.

The growth in the home textiles would be supported by growing household income, increasing population and growth of end use sectors like housing, hospitality, healthcare, etc.

In FY19, Indian home textile industry reached US$ 4.95 billion.

**Note:** E - Estimates,
**Source:** Ministry of Textiles, Welspun Presentation
Technical textile industry - a new arena of growth

- Technical textile industries major service offerings include thermal protection and blood-absorbing materials, seatbelts and adhesive tapes.
- India is expected to be a key growth market for the technical textile sector due to cost-effectiveness, durability and versatility of technical textiles.
- The targeted market size would be achieved by targeting non-woven technical textiles. Healthcare and infrastructure sectors are major drivers of the technical textile industry.
- The Government has assigned 207 Harmonized System Nomenclature (HSN) to promote India’s technical textile industry.
- The technical textile industry is expected to reach to US$ 40 billion in FY24, increasing at a CAGR of 16.05% over FY19. It contributes ~0.7% to India’s GDP and accounts for ~13% of India’s total textile and apparel market.
- The industry, supported by various flagship schemes initiated by the Government to promote its full potential, is forecast to grow 20% y-o-y and is expected to reach Rs. 200,823 crore (US$ 29.96 billion) by FY21.
- As of 2019, 348 technical textiles products were developed according to Bureau of Indian Standards (BIS).
- Government introduced six additional courses for technical textiles in its skill development programme called Samarth.

Note: SME - Small and Medium Enterprises, E - Estimates; Figures mentioned are as per latest data available

Recent Trends and Strategies
Steady recovery in textile manufacturing is likely to aid growth

- Textile manufacturing in India has been steadily recovering amid the pandemic.
- The size of India's textile industry is expected to touch US$ 223 billion market by 2021.

Promotion of khadi
The Government plans to connect around 50 million women in Indian villages to charkha (spinning wheel) in the next five years with the aim of providing employment and promoting brand khadi.
In July 2020, Indian Red Cross Society (IRCS) to buy 180,000 face masks from Khadi and Village Industries Commission (KVIC).
On August 10, 2020, KVIC inaugurated the first of its kind Training cum Production Center of Silk in the tribal village of Chullyu in Arunachal Pradesh.

Focus on high growth domestic markets
In August 2019, Synthetic and Rayon Textile Export Promotion Council (SRTEPC) organised a roadshow in collaboration with the Indian Mission.
The Government of India has increased the basic custom duty to 20% from 10% on 501 textile products to boost Make in India and indigenous production.

Focus on backward integration
On July 17, 2020, Khadi and Village Industries Commission (KVIC) inaugurated the first-of-its-kind footwear training center in Delhi to train the marginalized community of leather artisans.
In August 2019, Ministry of Textiles signed MoUs with 16 state governments to impart skill training and covering the entire value chain of the textiles sector except spinning and weaving.

Focus on forward integration
In October 2019, Asahi Songwon Colors Limited entered into joint venture (JV) with Tennants Textile Colours (TTC) Limited to set up a state-of-the-art red and yellow pigments plant.
On July 10, 2020, Flipkart Group bought a minority stake in Arvind Youth Brands, a subsidiary of Arvind Fashions Ltd (AFL), for Rs. 260 crore (US$ 36.88 million).

Source: Ministry of Textiles, Geotechnical
Diversification
Raymond group under its group company, J.K.Helene Curtis, is looking to ramp up male grooming segment by unleashing new variants of shampoos and deodorants. In October 2020, Aditya Birla Fashion and Retail Limited approved issuance of equity shares on a preferential basis to Flipkart Investments Private Limited aggregating to Rs. 1500 crore (US$ 203.66 million). The company also entered into a commercial agreement in relation to the sale and distribution of its various brands. In May 2020, the Ministry of Textiles urged textile entrepreneurs to reorient themselves and diversify their manufacturing skills to suit the global demand amid the coronavirus pandemic.

R&D
Defence Research and Development Organisation (DRDO) is helping the Indian textile industry to produce yarns and eliminate dependence on import of Chinese and other foreign clothing for military uniforms.

Growth Drivers
Strong fundamentals and policy support aiding growth

**Growing demand**
- Rising demand in exports
- Increasing demand in domestic market due to changing taste and preferences
- Growing population driving demand for textiles

**Policy support**
- Growing domestic and foreign investments
- Government setting up SITPs and mega cluster zones
- Increasing loans under TUF

**Increasing investment**
- 100% FDI in textile sector
- US$ 140 billion of foreign investment expected
- Government investment schemes (TCIDS and APES)

**Note:** TCIDS - Textile Center Infrastructure Development Scheme, APES - Apparel Park for Exports Scheme
**Source:** Ministry of Textiles
Rising incomes and a growing middle-class have been key demand drivers

- Rising income has been a key determinant of domestic demand for the sector; with income rising in the rural economy as well. The upward push on demand from rising income is set to continue.
- Rising industrial activity would support the growth in per capita income.

**Source:** IMF, Mckinsey Global Institute
Exporters gaining from strong global demand

- India is the world’s second-largest textile exporter. Capacity built over years has led to low cost of production per unit in India’s textile industry. This has lent a strong competitive advantage to country’s textile exporters over key global peers.

- The strong performance of textile export is reflected in the value of export from the sector over these years. Textile export increased to US$ 38.70 billion in FY19 at a CAGR of 4.22% over FY16. It reached US$ 22.94 billion in FY20^.

- In the coming decade, Africa and Latin America could very well turn out to be the key markets for Indian textiles.

- On September 2, 2020, the Union Cabinet approved signing of an MOU between textile committee, India and M/s Nissenken Quality Evaluation Centre, Japan, for improving quality and testing Indian textiles and clothing for the Japanese market. This India-Japan pact on cooperation in textiles will facilitate Indian exporters to meet the requirements of Japanese importers as per the latter’s technical regulations.

Policy support has been a key ingredient to growth… (1/3)

**Amended Technology Up-gradation Fund Scheme (A-TUFS)**
- Investment was made to promote modernisation and up-gradation of the textile industry by providing credit at reduced rates. A subsidy of Rs. 6,717.18 crore (US$ 952.93 million) was released under this scheme between FY16 and FY20.

**National Textile Policy - 2000**
- Key areas of focus include technological upgrades, enhancement of productivity, product diversification and financing arrangements.
- New draft for this policy ensures to employ 35 million by attracting foreign investment. It also focuses on establishing a modern apparel garment manufacturing centre in every state in the Northeast for which the Government has invested an amount of US$ 3.27 million.

**FDI**
- Foreign direct investment (FDI) of up to 100% is allowed in the textile sector through the automatic route.

**SAATHI Scheme**
- The Union Ministry of Textiles, Government of India, along with Energy Efficiency Services Ltd (EESL), has launched a technology upgradation scheme called SAATHI (Sustainable and Accelerated Adoption of Efficient Textile Technologies to Help Small Industries) for reviving the power loom sector of India.

**Merchandise Exports from India Scheme**
- The Directorate General of Foreign Trade (DGFT) has revised rates for incentives under the Merchandise Exports from India Scheme (MEIS) for two subsectors of textiles Industry - readymade garments and made-ups - from 2% to 4%.

*Source: Press Releases*
Policy support has been a key ingredient to growth… (2/3)

Scheme for Capacity Building in Textiles Sector (SCBTS)

- The Cabinet Committee on Economic Affairs (CCEA), Government of India, has approved a new skill development scheme called 'Scheme for Capacity Building in Textile Sector (SCBTS)' with an outlay of Rs. 1,300 crore (US$ 202.9 million) from FY18 to FY20.
- The scheme is aimed at providing a demand driven and placement-oriented skilling programme to create jobs in the organised textile sector and to promote skilling and skill up-gradation in the traditional sectors.

Textile Incentives

- The Textile Ministry of India earmarked Rs. 690 crore (US$ 106.58 million) for setting up 21 readymade garment manufacturing units in seven states for development and modernisation of Indian Textile Sector.

Government Incentives

- The Government of India announced a special package to boost export by US$ 31 billion, create one crore jobs and attract investment worth Rs. 800.00 billion (US$ 11.93 billion) during 2018-2020.
- The Government of India has taken several measures including A-TUFS. The scheme is estimated to create employment for 3.5 million people and enable investment worth Rs. 950.00 billion (US$ 14.17 billion) by 2022.
- The Ministry of Textiles announced outlay of Rs. 690 crore (US$ 106.58 million) for setting up 21 readymade garment manufacturing units in seven states for development and modernisation of Indian textile sector.
- In August 2020, the Department of Promotion of Industry and Internal Trade (DPIIT) proposed incentives for the textiles sector for product diversification of the top 40 apparel and home textile goods and the top 10 technical textile goods that are traded globally. The long-term suggestion is to have an Rs. 40,000 crore (US$ 5.47 billion) textile fund to encourage investments in the identified textile segments. The proposal is also to build coastal mega textile parks with plug and play facilities. Moreover, suggestions are also made to bring direct benefit transfer for cotton farmers—a move also suggested by the government think tank NITI Aayog.

Source: Press Releases
Policy support has been a key ingredient to growth… (3/3)

**SAMARTH**
- In 2019, Ministry of Textiles signed a pact with sixteen states for skilling around 400,000 workers under the SAMARTH scheme.
- Six additional courses were added for technical textiles in its skill development programme.

**Production Linked Incentive Scheme**
- Under this scheme, incentives will be provided to manufacture and export specific textile products made of man-made fibres.
- The government approved Rs. 10,683 crore (US$ 1.44 billion) for man-made fibre and technical textiles.

**Government Announcements**
- To support the handloom and handicrafts sector, the government has taken steps to onboard weavers/artisans on Government e-Marketplace (GeM), provide a wider market and enable them to sell their products directly to various government departments and organisations. As of December 31, 2020, 171,167 weavers/artisans/handloom entities have been registered on the GeM portal.
- On December 3, 2020, the Ministry of Textiles invited proposals for constitution of a dedicated Export Promotion Council (EPC) for technical textiles. The Exporter Association and Trade bodies registered under the Companies Act or Society Registration Act have been asked to submit proposals for setting up a dedicated EPC for technical textiles.

*Source: Press Releases*
Foreign investment flowing into the sector

- 100% FDI is permitted in the sector. Cumulative FDI inflow in the textiles sector stood at over US$ 3.46 billion between April 2000 and September 2020.
- The textiles industry in India is experiencing a significant increase in collaboration between global majors and domestic companies.
- International apparel giants like Hugo Boss, Liz Claiborne, Diesel and Kanz, have already started operations in India.

Note: Textiles sector FDI includes Dyed and Printed, FDI - Foreign Direct Investment. *- Until September 2020

Opportunities… (1/3)

1. **Immense growth potential**
   - The Indian textile industry is set for strong growth, buoyed by both strong domestic consumption as well as export demand.
   - The sector is expected to reach US$ 226 billion by FY23.
   - Urbanisation is expected to support higher growth due to change in fashion and trends.

2. **Private sector participation in silk production**
   - The Central Silk Board sets target for raw silk production and encourages farmers and private players to grow silk.
   - To achieve these targets, alliances with the private sector, especially major agro-based industries in pre-cocoon and post-cocoon segments, are being encouraged.
   - The total raw silk production increased by 1% (35,820 MT) in FY20 over the previous year FY19 (35,468 MT) despite COVID-19.

3. **Proposed FDI in multi-brand retail**
   - For the textile industry, the proposed hike in FDI limit in multi-brand retail will bring in more players, thereby providing more options to consumers.
   - It will also bring in greater investment along the entire value chain - from agricultural production to final manufactured goods.
   - With global retail brands assured of a domestic foothold, outsourcing will also rise significantly.
Opportunities… (2/3)

4

Union Budget 2020-21
- Under Union Budget 2020-21, the Government has allocated around Rs. 3,515 crore (US$ 502.93 million) to the Ministry of Textiles.
- Rs. 223 crore (US$ 31.91 million) is allocated to Textile Infrastructure.
- Rs. 761.90 crore (US$ 109.01 million) is allocated for A-TUFS.
- Rs. 159.08 crore (US$ 22.76 million) allocated towards schemes for powerloom units.
- Rs. 80 crore (US$ 11.45 million) allocated for scheme targeted towards Integrated Textile Parks.
- The National Handloom Development Programme will get Rs. 388.21 crore (US$ 55.55 million) and the Integrated Processing Development Scheme will get Rs. 50 crore (US$ 7.15 million).

5

Retail sector offers growth potential
- With consumerism and disposable income on the rise, the retail sector has experienced a rapid growth in the past decade as several international players like Marks and Spencer, Guess and Next have entered the Indian market.
- The organised apparel segment is expected to grow at a CAGR of more than 13% over a 10-year period.
- Future Group plans to expand with 80 stores in order to reach the target sales of 80 million units. This would add to their portfolio of 300 stores spread across the country.
- In December 2019, Future Retail Limited (FRL) and Amazon India entered into an agreement under which, FRL's existing infrastructure, product knowledge and brand portfolio will be utilised by Amazon India across its retail network.
Centers of Excellence (CoE) for research and technical training

- The CoEs are aimed at creating testing and evaluation facilities as well as developing resource centres and training facilities.
- Existing 4 CoEs, BTRA for Geotech, SITRA for Meditech, NITRA for Protech and SASMIRA for Agrotech, would be upgraded in terms of development of incubation centre and support for development of prototypes.
- Fund support would be provided for appointing experts to develop these facilities.

Foreign investments

- The Government is taking initiatives to attract foreign investment in the textile sector through promotional visits to countries such as Japan, Germany, Italy and France.
- According to the new Draft of the National Textile Policy, the Government is planning to attract foreign investment and creating employment opportunities for 35 million people.
- In December 2019, online clothing brand, Henry & Smith, raised US$ 1 million from WEH Ventures and Rukam Capital.
- India can become the one-stop sourcing destination for companies from Association of Southeast Asian Nations (ASEAN) as there exist several opportunities for textile manufacturing companies from 10-nation bloc to invest in India.

Notes: BTRA - The Bombay Textile Research Association, SITRA - South India Textile Research Association, NITRA - Northern India Textile Research Association, SASMIRA - Synthetic and Art Silk Mills Research Association
